

CONTENTS

Reclamation and Salt Leaching Efficiency for Tile Drained Saline-Sodic Soil Using Marginal Quality Water for Irrigating Rice and Wheat Crops A. Ghafoor, G. Murtaza, M. Z. Rehman, Saifullah and M. Sabir	1
Environmental Risk from the Development of PFA Fill Earthwork Structures and an Improved Code of Practice to Mitigate Potential Impacts M. Cross and P. G. Studds	10
Public Perception of Landscape Restoration Along a Degraded Urban Streamside H. Özgüner, Ş. Eraslan and S. Yilmaz	24
Effects of Soil Conservation on Soil Properties of Citrus Orchards in the Three-Gorges Area, China Q. X. Xu, T. W. Wang, C. F. Cai, Z. X. Li and Z. H. Shi	34
High-Resolution Satellite Imagery for Detection of Tracks and Vegetation Damage Caused by All-Terrain Vehicles (ATVs) in Northern Norway H. Tømmervik, B. Johansen, K. A. Høgda and K. B. Strann	43
The Effects of Irrigation and Cultivation on the Quality of Desert Soil in Central Iran J. Fallahzade and M. A. Hajabbasi	53
The Vegetation Cover Dynamics (1982–2006) in Different Erosion Regions of the Yellow River Basin, China C. Y. Miao, L. Yang, X. H. Chen and Y. Gao	62
Soil Loss, Soil Degradation and Rehabilitation in a Degraded Land Area in Guarapuava (Brazil) E. L. Thomaz and J. C. Luiz	72
Long-term Cropping Systems and Tillage Management Effects on Soil Organic Carbon Stock and Steady State Level of C Sequestration Rates in a Semiarid Environment V. Barbera, I. Poma, L. Gristina, A. Novara and M. Egli	82
Soil-Vegetation Relationships of Three Arid Land Plant Species and Their Use in Rehabilitating Degraded Sites H. K. Chigani, S. J. Khajeddin and H. R. Karimzadeh	92
Book Review	102
