

# Journal of Human Nutrition and Dietetics

Volume 25 • Issue 1 • February 2012

## Editorial

- 1 A. BROTHERTON and K. WHELAN

*Improving the evidence base in clinical nutrition, public health nutrition and epidemiology, nutritional science and dietetic professional practice*

## Clinical Nutrition

- 3 C. MOSS, W. S. DHILLO, G. FROST and M. HICKSON

*Gastrointestinal hormones: the regulation of appetite and the anorexia of ageing*

- 16 S. S. CHRISTODOULIDES, E. G. NEAL, G. FITZSIMMONS, H. M. CHAFFE, Y. M. JEANES, H. AITKENHEAD and J. H. CROSS

*The effect of the classical and medium chain triglyceride ketogenic diet on vitamin and mineral levels*

- 27 H. GOKMEN-OZEL, A. DALY, P. DAVIES and A. MACDONALD

*The development of nonweighed pilot methods for estimating phenylalanine exchanges in non-phenylketonuria volunteers*

- 33 P. B. SULLIVAN, N. ALDER, B. SHRESTHA, L. TURTON and B. LAMBERT

*Effectiveness of using a behavioural intervention to improve dietary fibre intakes in children with constipation*

## Public Health Nutrition and Epidemiology

- 43 T. COPPINGER, Y. M. JEANES, J. HARDWICK and S. REEVES

*Body mass, frequency of eating and breakfast consumption in 9–13-year-olds*

- 50 C. P. OSOWSKI, C. FJELLSTRÖM, U. OLSSON and H. GÖRANZON

*Agreement between child and parent reports of 10- to 12-year-old children's meal pattern and intake of snack foods*

- 59 K. E. STOREY and L. J. MCCARGAR

*Reliability and validity of Web-SPAN, a web-based method for assessing weight status, diet and physical activity in youth*

- 69 B. S. E. PETERS, E. VERLY JR, D. M. L. MARCHIONI, M. FISBERG and L. A. MARTINI

*The influence of breakfast and dairy products on dietary calcium and vitamin D intake in postpubertal adolescents and young adults*

- 75 J. A. GRIEGER, J. SCOTT and L. COBIAC

*Cluster analysis and food group consumption in a national sample of Australian girls*

- 87 W. B. TRAILL, S. A. CHAMBERS and L. BUTLER

*Attitudinal and demographic determinants of diet quality and implications for policy targeting*

## Nutritional Science

- 95 F. BOKHARI, E. DERBYSHIRE, W. LI, C. S. BRENNAN and V. STOJCESKA

*A study to establish whether food-based approaches can improve serum iron levels in child-bearing aged women*
