

# European Journal of Agronomy

Vol. 39

CONTENTS

MAY 2012

(Abstracts/contents list published in: AGRICOLA, CABS (Current Awareness in Biological Sciences), Biobase, CAB International, INIST Pascal Database, Chemical Abstracts, Current Contents (Agricultural, Biological and Environmental Sciences), Ecological Abstracts, Geobase. Also covered in the abstract and citation database SCOPUS®. Full text available on ScienceDirect®)

Improving cereal protein yields for high latitude conditions P. Peltonen-Sainio, L. Jauhiainen and E. Nissilä . . . . .	1
Rice in cropping systems—Modelling transitions between flooded and non-flooded soil environments D.S. Gaydon, M.E. Probert, R.J. Buresh, H. Meinke, A. Suriadi, A. Dobermann, B. Bouman and J. Timsina . . . . .	9
Impact of herbicide application intensity in relation to environment and tillage on earthworm population in sugar beet in Germany A. Marwitz, E. Ladewig and B. Märlander . . . . .	25
Modelling the role of algae in rice crop nutrition and soil organic carbon maintenance D.S. Gaydon, M.E. Probert, R.J. Buresh, H. Meinke and J. Timsina . . . . .	35
Effects of compaction during drilling on yield of sugar beet ( <i>Beta vulgaris</i> L.) J. Arvidsson, E. Bölenius and K.M.V. Cavalieri . . . . .	44
Size and composition of weed seedbank in long-term organic and conventional low-input cropping systems F. Graziani, A. Onofri, E. Pannacci, F. Tei and M. Guiducci. . . . .	52
Evaluating agronomic adaptation options to increasing heat stress under climate change during wheat grain filling in France D. Gouache, X. Le Bris, M. Bogard, O. Deudon, C. Pagé and P. Gate. . . . .	62
