

Ecology, Biological Processes and Plant Interactions

- Polyacrylamide molecular formulation effects on erosion control of disturbed soil on steep rocky slopes**
L.-x. Yang, S.-c. Li, H.-l. Sun, F.-f. Ye, W. Liu, and S. Luo 917–924

- Culturable autotrophic ammonia-oxidizing bacteria population and nitrification potential in a sheep grazing intensity gradient in a grassland on the Loess Plateau of Northwest China**
T. Liu, Z. Nan, and F. Hou 925–934

- Soil nitrogen mineralization and enzymatic activities in fire and fire surrogate treatments in California**
J. R. Miesel, R. E. J. Boerner, and C. N. Skinner 935–946

Composition and Chemical Processes

- Phosphorus solubility in Manitoba soils treated with pig manure from phytase supplemented diets**
D. V. Ige, O. S. Abioye, O. O. Akinremi, C. M. Nyachoti, and D. N. Flaten 947–955

Physical Processes and Interfaces

- Soil compaction under varying rest periods and levels of mechanical disturbance in a rotational grazing system**
C. Halde, A. M. Hammermeister, N. L. McLean, K. T. Webb, and R. C. Martin 957–964

- Measuring unsaturated hydraulic conductivity ($K(\psi_m)$) of the F and H soil organic layers at small matric potential (ψ_m)**
B. Wilske and E. A. Johnson 965–968

Contamination and Environmental Stewardship

- Accumulation and redistribution of residual chloride, nitrate, and soil test phosphorus in soil profiles amended with fresh and composted cattle manure containing straw or wood-chip bedding**
J. J. Miller, B. W. Beasley, C. F. Drury, and B. J. Zebarth 969–984

Management for Agricultural, Forestry and Urban Uses

- Estimation of decay constants for crop residues measured over 15 years in conventional and reduced tillage systems in a coarse-textured soil in southern Ontario**
R. P. Beyaert and R. Paul Voroney 985–995

- Life cycle assessment of corn stover production for cellulosic ethanol in Quebec**
T. Whitman, S. F. Yanni, and J. K. Whalen 997–1012

- Consequences of potassium, magnesium sulphate fertilization of high density Fuji apple orchards**
G. H. Neilsen and D. Neilsen 1013–1027

- Residual effects of one-time manure, crop residue and fertilizer amendments on a desurfaced soil**
F. J. Larney, H. H. Janzen, and A. F. Olson 1029–1043

- Author Index** 1045–1046

- Subject Index** 1047–1052
