

Water Resources Management

Volume 26 · Number 7 · May 2012

Modeling of Drinking Water Distribution Networks Using Stochastic Demand

V.H. Alcocer-Yamanaka · V.G. Tzatchkov · F.I. Arreguin-Cortes 1779

Initial Soil Water Content as Input to Field-Scale Infiltration and Surface Runoff Models

R. Morbidelli · C. Corradini · C. Saltalippi · L. Brocca 1793

Multiobjective Design of Groundwater Monitoring Network Under Epistemic Uncertainty

A. Dhar · R.S. Patil 1809

Optimizing Structural Best Management Practices Using SWAT and Genetic Algorithm to Improve Water Quality Goals

P. Kaini · K. Artita · J.W. Nicklow 1827

Sustainable Management for Minimizing Land Subsidence of an Over-Pumped Volcanic Aquifer System: Tools for Policy Design

A.I. Calderhead · R. Martel · J. Garfias · A. Rivera · R. Therrien 1847

The Cost of Irrigation Water Delivery: An Attempt to Reconcile the Concepts of Cost and Efficiency

G. Dono · L. Giraldo · S. Severini 1865

River Suspended Sediment Prediction Using Various Multilayer Perceptron Neural Network Training Algorithms—A Case Study in Malaysia

M.R. Mustafa · R.B. Rezaur · S. Saiedi · M.H. Isa 1879

Hydrologic and Hydrogeologic Characterization of a Deltaic Aquifer System in Orissa, Eastern India

S. Mohanty · M.K. Jha · A. Kumar · S.K. Jena 1899

Integrated Modeling of Global Change Impacts on Agriculture and Groundwater Resources

R. Barthel · T.G. Reichenau · T. Krimly · S. Dabbert · K. Schneider · W. Mauser 1929

Managing Adaptation of Urban Water Systems in a Changing Climate

M.D. Short · W.L. Peirson · G.M. Peters · R.J. Cox 1953

Examining Biophysical and Socio-Demographic Factors across Mandated Tank Users in Urban Australia: A Linking Step towards Achieving Best Practices

A. Mankad · M.N. Chong · T. Gardner · A. Sharma 1983

Evaluating Water Transfer Projects Using Analytic Network Process (ANP)

S.L.R. Toosi · J.M.V. Samani 1999

Identifying Optimal Water Resources Allocation Strategies through an Interactive Multi-Stage Stochastic Fuzzy Programming Approach

S. Wang · G.H. Huang 2015

Identifying Homogeneous Water Quality Regions in the Nile River Using Multivariate Statistical Analysis

A.G. Awadallah · M. Yousry 2039

Simulating the Impact of Pricing Policies on Residential Water Demand: A Southern France Case Study

J.-D. Rinaudo · N. Neverre · M. Montginoul 2057

Evaluation of Water Balance in a Mountainous Upland Catchment Using SEBAL Approach

M.T. Dastorani · S. Poormohammadi 2069

Integrated Economic-Hydrologic Assessment of Water Management Options for Regulated Wetlands Under Conditions of Climate Change: A Case Study from the Spreewald (Germany)

M. Grossmann · O. Dietrich 2081

An Evaluation of Demand for and Supply of Potable Water in an Urban Centre of Abeokuta and Environs, Southwestern Nigeria

O.A. Idowu · J.A. Awomeso · O. Martins 2109

ERRATUM

Erratum to: River Suspended Sediment Prediction Using Various Multilayer Perceptron Neural Network Training Algorithms—A Case Study in Malaysia

M.R. Mustafa · R.B. Rezaur · S. Saiedi · M.H. Isa 2123
