

## Special Issue: Adaptation and functional water management by land use change

### Adaptation and functional water management through land use change

Ü. Mander and B.C. Meyer (Leipzig, Germany) .....	1
Indicators of nutrients transport from agricultural catchments under temperate climate: A review	
J. Pärn (Tartu, Estonia), G. Pinay (Birmingham, UK and Rennes, France) and Ü. Mander (Tartu, Estonia) .....	4
Diffuse nutrient reduction in the German Baltic Sea catchment: Cost-effectiveness analysis of water protection measures	
M. Mewes (Greifswald, Germany) .....	16
Optimizing the environmental performance of agricultural activities: A case study in La Boulouze watershed	
Y. Darradi (Cestas, France), E. Saur (Gradignan, France), R. Laplana, J.-M. Lescot, V. Kuentz (Cestas, France) and B.C. Meyer (Dortmund, Germany) .....	27
Assessing effects of landscape pattern on sediment yield using sediment delivery distributed model and a landscape indicator	
M. Yang (Shenyang, China and Nanjing, China), X. Li (Shenyang, China and Shanghai, China), Y. Hu and X. He (Shenyang, China) .....	38
A multifunctional assessment method for compromise optimisation of linear landscape elements	
B.C. Meyer (Dortmund, Germany), T. Wolf and R. Grabaum (Leipzig, Germany) .....	53
