

BEHAVIOUR, WELFARE, HUSBANDRY & ENVIRONMENT

Effects of a high oil and fibre diet and supplementary roughage on performance, injurious pecking and foraging activities in two layer hybrids. R. Kalmendal and H. Wall 153

GENETICS

Many quantitative trait loci for feather growth in an F₂ broiler × layer cross collocate with body weight loci. P.M. Hocking, D.M. Morrice, A.S. Law and D.W. Burt 162

MEAT AND EGG SCIENCE

Head-cloaca controlled current stunning: assessment of brain and heart activity and meat quality. E. Lambooi, H.G.M. Reimert, L.D. Workel and V.A. Hindle 168

Interaction of transport distance and body weight on preslaughter stress and breast meat quality of broilers. S. Yalçın and H.C. Güler 175

MICROBIOLOGY

In vitro screening of lactobacilli isolated from chicken excreta to control Salmonella Enteritidis and Typhimurium. M. Yamazaki, H. Ohtsu, Y. Yakabe, M. Kishima and H. Abe 183

MOLECULAR BIOLOGY

Cloning, expression and bioinformatics analysis of the duck TLR 4 gene. H. Jia, G. Li, J. Li, Y. Tian, D. Wang, J. Shen, Z. Tao, J. Xu and L. Lu 190

NUTRITION

Effects of high fat diets or prednisolone treatment on femoral head separation in chickens. V. Durairaj, F.D. Clark, C.C. Coon, W.E. Huff, R. Okimoto, G.R. Huff and N.C. Rath 198

The effects of phytase and root hydroalcoholic extract of Withania somnifera on productive performance and bone mineralisation of laying hens in the late phase of production. A.M. Tahmasbi, M.T. Mirakzahi, S.J. Hosseini, M.J. Agah and M. Kazemi Fard 204

Effects of fermented plant product on growth performance, some blood variables, carcass characteristics, and intestinal histology in broilers. K. Lokaewmanee, K. Yamauchi and N. Thongwittaya 215

The thermostable β-1,3-1,4-glucanase from Clostridium thermocellum improves the nutritive value of highly viscous barley-based diets for broilers. T. Ribeiro, M.M.S. Lordelo, J.A.M. Prates, L. Falcão, J.P.B. Freire, L.M.A. Ferreira and C.M.G.A. Fontes 224

Effects of diet acidification and xylanase supplementation on performance, nutrient digestibility, duodenal histology and gut microflora of broilers fed wheat based diet. O. Esmailipour, H. Moravej, M. Shivazad, M. Rezaian, S. Aminzadeh and M.M. Van Krimpen 235

The effects of kale (Brassica oleracea ssp. acephala), basil (Ocimum basilicum) and thyme (Thymus vulgaris) as forage material in organic egg production on egg quality. M. Hammershøj and S. Steinfeldt 245

PARASITOLOGY & PHARMACOKINETICS

Pharmacokinetics of gatifloxacin in broiler chickens following intravenous and oral administration. S.S. Devada, S.D. Patel, H.B. Patel, N.N. Patel, S.K. Bhavsar and A.M. Thaker 257

PHYSIOLOGY, BIOCHEMISTRY & NEUROBIOLOGY

Interaction between ascites susceptibility and CO₂ during the second half of incubation of two broiler lines: the effect on post-hatch development and ascites mortality. N. Everaert, H. Willemsen, M. Debonne, A. Witters, B. Kamers, V.M. Darras, J. de Baerdemaeker, E. Decuypere and V. Bruggeman 262

Rhodanese activity in different tissues of the ostrich. N. Eskandarzade, M. Aminlari, S. Golami and M. Tavana 270
