

**FARRER REVIEW**

Breeding lucerne for persistence

*J. H. Bouton*

95

**REVIEW PAPER**

Perennial ryegrass breeding in New Zealand: a dairy industry perspective

*Julia M. Lee, Cory Matthew, Errol R. Thom, David F. Chapman*

107

**RESEARCH PAPERS**Evaluation of a reduced-tillering (*tin*) gene in wheat lines grown across different production environments*J. H. Mitchell, S. C. Chapman, G. J. Rebetzke, D. G. Bonnett, S. Fukai*

128

Adaptation analysis of diversity in adzuki germplasm introduced into Australia

*R. J. Redden, P. M. Kroonenberg, K. E. Basford*

142

Assessment of gene flow in white clover (*Trifolium repens* L.) under field conditions in Australia using phenotypic and genetic markers*J. A. De Lucas, J. W. Forster, K. F. Smith, G. C. Spangenberg*

155

Arbuscular mycorrhizal fungi improve the growth and nodulation of the annual legume messina (*Melilotus siculus*) under saline and non-saline conditions*B. A. L. Wilson, G. J. Ash, J. D. I. Harper*

164

Dry matter allocation in *Medicago arborea* and *Medicago citrina* in response to drought and defoliation*Elkadri Lefi, Miquel À. Conesa, Josep Cifre, Javier Gulías, Hipólito Medrano*
