

ORIGINAL ARTICLES

- 1 Preface
I.S. Aamlid
- 3 Priorities for sustainable turfgrass management: a research and industry perspective
M. Strandberg, K. Blombäck, A.M. Dahl Jensen and J.W. Knox
- 10 Turfgrass species and varieties for Integrated Pest Management of Scandinavian putting greens
I.S. Aamlid, G. Thorvaldsson, F. Enger and T. Pettersen
- 24 Rooting characteristics and turfgrass quality of three bermudagrass cultivars and a zoysiagrass
F. Rimi, S. Mocolino and U. Ziliotto
- 32 *Poa pratensis* or *Lolium perenne* for establishment and overseeding of Scandinavian football (soccer) pitches
I.S. Aamlid, L. Nesheim, T. Pettersen, F. Enger and P. Vesterbukt
- 44 Salt tolerance of 75 cool-season turfgrasses for roadsides
J. Friell, E. Watkins and B. Horgan
- 53 Effects of rootzone CO₂ and O₂ levels on seed germination and stolon growth of *Cynodon dactylon*
A.-E. Nikolopoulou, P.A. Nektarios, G. Aivalakis, M. Volterrani and I. Chronopoulos
- 62 Carbohydrate content, characterization and localization in bermudagrass stolons during establishment
M. Volterrani, A. Pompeiano, S. Magni and L. Guglielminetti
- 70 Suppression of *Microdochium nivale* by potassium phosphite in cool-season turfgrasses
J.J. Dempsey, I.D. Wilson, P.T.N. Spencer-Phillips and D.L. Arnold
- 79 Irrigation frequency influences establishment of silvery thread moss (*Bryum argenteum* Hedw.) and rooting of creeping bentgrass (*Agrostis stolonifera* L.) on simulated golf greens
E.M. Lyons, K.S. Jordan, I.T. James, D.M. Hudner and D. McGowan
- 86 Pesticide fate in sodded kentucky bluegrass lawns in response to irrigation
M.R. Slavens and A.M. Petrovic
- 96 Effects of rootzone composition and irrigation regime on performance of velvet bentgrass putting greens. I. Turf quality, soil water repellency and nutrient leaching
T. Espevig and I.S. Aamlid
- 106 Effects of root zone composition and irrigation regime on performance of velvet bentgrass putting greens. II. Thatch, root development and playability
T. Espevig and I.S. Aamlid
- 113 Demand-driven fertilization. Part I: Nitrogen productivity in four high-maintenance turf grass species
T. Ericsson, K. Blombäck and A. Neumann
- 122 Impact of mowing height and late autumn fertilization on winter survival and spring performance of golf greens in the Nordic countries
A. Kvalbein and I.S. Aamlid
- 130 Evaluation of organic fertilizer sources for south-eastern (USA) turfgrass maintenance
E.A. Guertal and B.D. Green
- 139 Demand-driven fertilization. Part II: Influence of demand-driven fertilization on shoot nitrogen concentration, growth rate, fructan storage and playing quality of golf turf
T. Ericsson, K. Blombäck, A. Kvalbein and A. Neumann
- 150 Hydrological characteristics of some volcanic materials as affected by particle size distribution and internal porosity
M. Volterrani and S. Magni
- 155 Evaluation of the effects of incorporation rate and depth of water-retentive amendment materials in sports turf constructions
S. Hejduk, S.W. Baker and C.A. Spring
- 165 Semi-extensive green roof substrate type and depth effects on *Zoysia matrella* 'Zeon' growth and drought tolerance under different irrigation regimes
N. Ntoulas, P.A. Nektarios, K. Spaneas and N. Kadoglou
