

CONTENTS

Editorial

- The Winchmore trials
RW McDowell and LC Smith 89

Articles

- Winchmore and the long-term trials: the early history
DS Rickard and RA Moss 93

- Pasture production from a long-term fertiliser trial under irrigation
LC Smith, RA Moss, JD Morton, AK Metherell and TJ Fraser 105

Review article

- Phosphorus and the Winchmore trials: review and lessons learnt
RW McDowell and LM Condron 119

- The rate of accumulation of cadmium and uranium in a long-term
grazed pasture: implications for soil quality
RW McDowell 133

- Alteration of pasture root carbon turnover in response to superphosphate
and irrigation at Winchmore New Zealand
JT Scott, DPC Stewart and AK Metherell 147

Short communication

- Effects of long-term fertiliser inputs on the quantities of organic carbon
in a soil profile under irrigated grazed pasture
LM Condron, A Black and SA Wakelin 161

- Influence of summer irrigation on soil invertebrate populations in a
long-term sheep irrigation trial at Winchmore (Canterbury)
PM Fraser, NL Schon, JE Piercy, AD Mackay and MA Minor 165

Review article

- Bibliography of research from the Winchmore Irrigation Research Station,
Canterbury, New Zealand: 1951 to 2011
KA Cousins and RW McDowell 181
