

Influence of Fallen Plant Leaves on Biological Activity of Post-Agrogenic Soils of Southern Taiga

A. S. Vladychensky[†], V. M. Telesnina, and T. A. Chalaya

1

Methods for Quantitative Diagnostics of Degree of Hydromorphism of Chernozem-Like Soils (Based on Example of Soils of Northern Tambov Plain)

F. R. Zaidelman, A. S. Nikiforova, L. V. Stepanova, and V. N. Krasin

8

Erosive Processes and Heterogeneity of Arable Horizon of Sod-Podzolic Soils

V. F. Basevich and I. B. Makarov

14

Study of Natural Waters with Lysimeter Model

N. E. Pervova and Yu. V. Egorov

20

Specificity of Soil Hydrolytically Microbial Complex under Different Moisture Conditions

N. A. Manucharova, A. M. Yaroslavtsev, A. L. Stepanov, I. I. Sudnitsyn, and P. A. Kozhevin

25

Content of Some Organic and Inorganic Pollutants in Soils of Southern Part of Sakhalin Island

A. I. Shcheglov and O. B. Tsvetnova

33

Bacterial Nanoforms of Some Soil Concretions

M. S. Kadulin, I. A. Konova, L. V. Lysak, V. S. Soina, E. V. Lapygina, and D. G. Zvyagintsev

39

Methane Emissions from North and Middle Taiga Mires of Western Siberia: Bc8 Standard Model

A. F. Sabrekov, M. V. Glagolev, I. V. Filippov, V. S. Kazantsev, E. D. Lapshina, T. Machida, and S. S. Maksyutov
