

## Review Papers

Colostrum intake: Influence on piglet performance and factors of variation H. Quesnel, C. Farmer and N. Devillers . . . . .	105
<b>Regular Papers</b>	
Influence of pig weight classification at cross-fostering on the performance of the primiparous sow and the adopted litter T. Bierhals, D. Magnabosco, R.R. Ribeiro, J. Perin, R.A. da Cruz, M.L. Bernardi, I. Wentz and F.P. Bortolozzo . . . . .	115
Effect of folic acid supplementation on hepatic antioxidant function and mitochondrial-related gene expression in weanling intrauterine growth retarded piglets J. Liu, Y. Yao, B. Yu, X. Mao, Z. Huang and D. Chen . . . . .	123
Genetic parameters for gestation length in French horse breeds B. Langlois and C. Blouin . . . . .	133
Effect of supplementation of beef steer diets with oil containing n6 and n3 fatty acids and 48 h feed withdrawal treatments on plasma hormone profiles and adipose tissue cellularity P.S. Mir, M.L. He, K. Schwartzkopf-Genswein, R. Sharma, F.A. Brown, G. Travis, T. Entz, R.O. Lemieux, M.E.R. Dugan, E. Okine and M.V. Dodson . . . . .	140
Modelling of Johne's disease control options in beef cattle: A decision support approach R. Bennett, I. McClement and I. McFarlane . . . . .	149
<i>mt-COX1</i> , <i>mt-ND1</i> and <i>CREBP</i> are indicators of intramuscular fat content in Hanwoo (Korean cattle) S.H. Lee, S.C. Kim, B.-H. Choi, D. Lim, N.K. Kim, J.H. Lee, O.H. Kim, C.S. Lee, H.C. Kim, B.S. Yang and S.K. Hong . . . . .	160
Genetic parameters of ultrasound and computer tomography scan traits in Austrian meat sheep L. Maximini, D.J. Brown, R. Baumung and B. Fuerst-Waltl . . . . .	168
Maternal treatment with dexamethasone at minimal therapeutic doses inhibits neonatal bone development in a gender-dependent manner E. Tomaszewska, P. Dobrowolski and A. Siwicki . . . . .	175
Responses of Cobb x Cobb 500 slow feathering broilers to feeding programs with increasing amino acid densities D. Taschetto, S.L. Vieira, R. Angel, A. Favero and R.A. Cruz . . . . .	183
<b>Short Communications</b>	
Biological activities of pennyroyal ( <i>Mentha pulegium</i> L.) in broilers M.K. Erhan, Ş.C. Bölükbaşı and H. Ürüşan . . . . .	189
Using high resolution melting analysis to identify variation of NPY, LEP and IGF-1 genes in Angus cattle A.I. Trujillo, F. Peñagaricano, M.P. Grignola, P. Nicolini, A. Casal, A.C. Espasandín, H. Naya, M. Carriquiry and P. Chilibroste . . . . .	193
<i>In vitro</i> survival and lipid peroxidation status of rabbit spermatozoa after both chilled and frozen storage in lycopene enriched extenders M.P. Rosato, M. Di Iorio, A. Manchisi, M. Gambacorta, G. Petrosino, G. Centoducati, M.P. Santacrose and N. Iaffaldano . . . . .	199
Nutrient composition, polyphenolic contents, and <i>in situ</i> protein degradation kinetics of leaves from three mulberry species W.X. Wang, H.J. Yang, Y.K. Bo, S. Ding and B.H. Cao . . . . .	203
