

RESEARCH

- 67 Municipal Solid Waste Compost Benefits on Short Rotation Woody Crops**
D.L. Rockwood, B. Becker and M.P. Ozores-Hampton
- 73 Assessment of Process Limiting Factors During the Biofiltration of Odorous VOCs in a Full-Scale Composting Plant**
Francesc X. Prenafeta-Boldú, Omar Ortega, Marc Arimany and Francesc Canalias
- 79 Compost Treatments Interact with Other Factors to Affect Red Radish Production**
Brian A. Kahn, Mark E. Payton and Donald A. Graetz
- 87 Evaluation Of Composted Insect Rearing Waste as a Potting Substrate For Radish, Squash And Green Bean**
Stewart Reed, Nancy D. Epsky, Robert R. Heath and Ricardo Joseph
- 92 Comparison of Six Spent Mushroom Composts as Growing Media for Transplant Production of Lettuce**
Y. Kwack, J.H. Song, Y. Shinohara, T. Maruo and C. Chun
- 97 Compost Tea Effects on Production and Extraction of Nitrogen in Ryegrass Cultivated on Soil Amended With Commercial Compost**
J. Hirzel, F. Cerda, P. Millas and A. France
- 105 Evolution of Available Heavy Metals in Soils Amended with Sewage Sludge Cocompost**
G. Delgado, V. Aranda, A.L. Pérez-Lomas, J.M. Martín-García, J. Calero and R. Delgado
- 120 Physicochemical and Microbial Characteristics of Locally Processed Green Waste Composts**
S.A.F. El-Nagerabi, A.E. Elshafie and H.S. AlRawahi

DEPARTMENTS

- 65 Perspective**
Jerome Goldstein, EcoPioneer, 1931-2012
- 66 Current Research Projects**
