Vol. 45, No. 5, 2012

## Genesis and Geography of Soils

- Dark Gray Soils on Two-Layered Deposits in the North of Tambov Plain:  
Agroecology, Properties, and Diagnostics  
*F. R. Zaidelman, A. S. Nikiforova, L. V. Stepansova, and V. P. Volokhina* 459
- Approaches to the Study of the Lithological Homogeneity of Soil Profiles  
and Soil Polygenesis  
*T. V. Tursina* 472
- Soils Developed from Alluvial and Proluvial Deposits in the Gröndalselva River  
Valley in West Spitsbergen  
*V. N. Pereverzev and T. I. Litvinova* 488

## Soil Chemistry

- Water Stability and Labile Humic Substances of Typical Chernozems  
under Different Land Uses  
*B. M. Kogut, S. A. Sysuev, and V. A. Kholodov* 496
- Acid–Base Buffering of Soils in Transitional and Transitional–Accumulative  
Positions of Undisturbed Southern-Taiga Landscapes  
*E. S. Rusakova, I. V. Ishkova, I. I. Tolpeshta, and T. A. Sokolova* 503

## Soil Biology

- Effect of a Cold Shock on the Activity and Composition of the Communities  
of Ammonium-Oxidizing Microorganisms in a Chestnut Soil  
*A. S. Cherobaeva, A. L. Stepanov, and I. K. Kravchenko* 514
- Assessment of the State of Soil Microbial Cenoses in the Forest-Tundra Zone  
under Conditions of Airborne Industrial Pollution  
*A. V. Bogorodskaya, T. V. Ponomareva, O. A. Shapchenkova, and A. S. Shishikin* 521

## Degradation, Rehabilitation, and Protection of Soils

- Comparison of Two Approaches for Assessing Solonetzic Process in the Virgin  
and Human-Transformed Soils of the Dry Steppe Zone  
*I. N. Lyubimova, A. V. Gorobets, A. V. Aksenov, and V. V. Khan* 532
- Soil-Agrochemical Aspects of Remediation of a Gray Forest Soil Polluted  
with Pb upon the Application of Growth-Promoting Rhizobacteria  
*V. P. Shabaev* 539
