

## REVIEWS

- 
- Prevalence of Zoonotic Bacteria in Wild and Farmed Aquatic Species and Seafood: A Scoping Study, Systematic Review, and Meta-analysis of Published Research** 487

*N. Tuševljak, A. Rajić, L. Waddell, L. Dutil, N. Cernicchiaro, J. Greig, B.J. Wilhelm, W. Wilkins, S. Totton, F.C. Uhland, B. Avery, and S.A. McEwen*

- Prevalence and Antibiotic Resistance of *Campylobacter*, *Salmonella*, and *L. monocytogenes* in Ducks: A Review** 498

*F. Adzitey, N. Huda, and G.R.R. Ali*

## ORIGINAL ARTICLES

- 
- Antimicrobial Susceptibility, Pulsed-Field Gel Electrophoresis, and Multi-locus Sequence Typing of *Campylobacter coli* in Swine Before, During, and After the Slaughter Process** 506

*M.J. Abley, T.E. Wittum, J.A. Funk, and W.A. Gebreyes*

- An Inactivation Kinetics Model for *Campylobacter jejuni* on Chicken Meat Under Low-Temperature Storage** 513

*J. Huang, F. Jiang, Y. Hu, X. Zhou, S. Gu, and X.-A. Jiao*

- Anisakis simplex sensu stricto* and *Anisakis pegreffii*: Biological Characteristics and Pathogenetic Potential in Human Anisakiasis** 517

*N. Arizono, M. Yamada, T. Tegoshi, and M. Yoshikawa*

- Prevalence and Antimicrobial Resistance of *Salmonella* Isolated from Meat and Meat Products in Algiers (Algeria)** 522

*L. Mezali and T.M. Hamdi*

- Virulence Profiling and Disease Association of Verocytotoxin-Producing *Escherichia coli* O157 and Non-O157 Isolates in Belgium** 530

*G. Buvens and D. Piérard*

- Detection and Zoonotic Potential of *Trichinella* spp. from Free-Range Pig Farming in Greece** 536

*V.G. Papatsiros, S. Boutsini, D. Ntousi, D. Stougiou, D. Mintza, and A. Bisias*

<b>Applicability of a Multiplex PCR to Detect the Seven Major Shiga Toxin–Producing <i>Escherichia coli</i> Based on Genes That Code for Serogroup-Specific O-Antigens and Major Virulence Factors in Cattle Feces</b>	541
