

**Short Communication**

- Reproducibility of 24-h post-exercise changes in energy intake in overweight and obese women using current methodology.  
G. L. Brown, M. E. Lean & C. R. Hankey 191–194

**Molecular Nutrition**

- Effect of dietary arginine on growth, intestinal enzyme activities and gene expression in muscle, hepatopancreas and intestine of juvenile Jian carp (*Cyprinus carpio* var. Jian).  
G. Chen, L. Feng, S. Kuang, Y. Liu, J. Jiang, K. Hu, W. Jiang, S. Li, L. Tang & X. Zhou 195–207
- The lipid-lowering effect of dietary proanthocyanidins in rats involves both chylomicron-rich and VLDL-rich fractions.  
H. Quesada, S. Díaz, D. Pajuelo, A. Fernández-Iglesias, S. García-Vallvé, G. Pujadas, M. J. Salvadó, L. Arola & C. Bladé 208–217
- Regulation of glucose metabolism via hepatic forkhead transcription factor 1 (FoxO1) by *Morinda citrifolia* (noni) in high-fat diet-induced obese mice.  
P. V. Nerurkar, A. Nishioka, P. O. Eck, L. M. Johns, E. Volper & V. R. Nerurkar 218–228
- Luminal calcium concentration controls intestinal calcium absorption by modification of intestinal alkaline phosphatase activity.  
L. R. Brun, M. L. Brance & A. Rigalli 229–233
- Effects of blackcurrant-based juice on atherosclerosis-related biomarkers in cultured macrophages and in human subjects after consumption of a high-energy meal.  
P. Huebbe, K. Giller, S. de Pascual-Teresa, A. Arkenau, B. Adolphi, S. Portius, C. N. Arkenau & G. Rimbach 234–244

**Metabolism and Metabolic Studies**

- Effects of added PGX<sup>®</sup>, a novel functional fibre, on the glycaemic index of starchy foods.  
J. C. Brand-Miller, F. S. Atkinson, R. J. Gahler, V. Kacinik, M. R. Lyon & S. Wood 245–248
- Effects of grape seed extract supplementation on exercise-induced oxidative stress in rats.  
M. Belviranlı, H. Gökbel, N. Okudan & K. Başaralı 249–256
- High-dose supplemental selenite to male Syrian hamsters fed hypercholesterolaemic diets alters *Ldlr*, *Abcg8* and *Npc1l1* mRNA expression and lowers plasma cholesterol concentrations.  
J. Poirier, K. A. Cockell, K. A. Scoggan, W. M. Nimal Ratnayake, H. Rocheleau, H. Gruber, E. Swist, P. Griffin, C. Gagnon & S. Kubow 257–266
- Manganese source affects manganese transport and gene expression of divalent metal transporter 1 in the small intestine of broilers.  
S.-P. Bai, L. Lu, R.-L. Wang, L. Xi, L.-Y. Zhang & X.-G. Luo 267–276
- Dietary nutrient composition affects digestible energy utilisation for growth: a study on Nile tilapia (*Oreochromis niloticus*) and a literature comparison across fish species.  
J. W. Schrama, S. Saravanan, I. Geurden, L. T. N. Heinsbroek, S. J. Kaushik & J. A. J. Verreth 277–289
- Non-extractable proanthocyanidins from grapes are a source of bioavailable (epi)catechin and derived metabolites in rats.  
M. L. Mateos-Martín, J. Pérez-Jiménez, E. Fuguet & J. L. Torres 290–297

**Developmental Biology**

- Maternal undernutrition during critical windows of development results in differential and sex-specific effects on postnatal adiposity and related metabolic profiles in adult rat offspring.  
G. J. Howie, D. M. Sloboda & M. H. Vickers 298–307

**Nutritional Immunology**

- Daily intake of *Lactobacillus casei* Shirota increases natural killer cell activity in smokers.  
M. Reale, P. Boscolo, V. Bellante, C. Tarantelli, M. Di Nicola, L. Forcella, Q. Li, K. Morimoto & R. Muraro 308–314

**Human and Clinical Nutrition**

- Oxidised fish oil does not influence established markers of oxidative stress in healthy human subjects: a randomised controlled trial.  
I. Ottestad, G. Vogt, K. Retterstøl, M. C. Myhrstad, J.-E. Haugen, A. Nilsson, G. Ravn-Haren, B. Nordvi, K. W. Brønner, L. F. Andersen, K. B. Holven & S. M. Ulven 315–326
- Effect of n-3 fatty acids on patients with advanced lung cancer: a double-blind, placebo-controlled study.  
C. Finocchiaro, O. Segre, M. Fadda, T. Monge, M. Scigliano, M. Schena, M. Tinivella, E. Tiozzo, M. G. Catalano, M. Pugliese, N. Fortunati, M. Aragno, G. Muzio, M. Maggiora, M. Oraldi & R. A. Canuto 327–333
- The effect of lutein- and zeaxanthin-rich foods v. supplements on macular pigment level and serological markers of endothelial activation, inflammation and oxidation: pilot studies in healthy volunteers.  
R. Graydon, R. E. Hogg, U. Chakravarthy, I. S. Young & J. V. Woodside 334–342
- Validation of the Malnutrition Universal Screening Tool (MUST) in cancer.  
C. Boléo-Tomé, I. Monteiro-Grillo, M. Camilo & P. Ravasco 343–348

**Dietary Surveys and Nutritional Epidemiology**

- Association between major patterns of dietary intake and weight status in adolescents.  
G. J. Cutler, A. Flood, P. J. Hannan, J. L. Slavin & D. Neumark-Sztainer 349–356
- Survey of anaemia and *Helicobacter pylori* infection in adolescent girls in Suihua, China and enhancement of iron intervention effects by *H. pylori* eradication.  
W. Xia, X. Zhang, J. Wang, C. Sun & L. Wu 357–362

**Behaviour, Appetite and Obesity**

- Impact of age on leptin and adiponectin independent of adiposity.  
B. Schautz, W. Later, M. Heller, A. Peters, M. J. Müller & A. Bosy-Westphal 363–370
- European adolescents' level of perceived stress is inversely related to their diet quality: the Healthy Lifestyle in Europe by Nutrition in Adolescence study.  
T. De Vriendt, E. Clays, I. Huybrechts, I. De Bourdeaudhuij, L. A. Moreno, E. Patterson, D. Molnár, M. I. Mesana, L. Beghin, K. Widhalm, Y. Manios & S. De Henauw on behalf of the HELENA Study Group 371–380
