

>> Research Reports

Cultivation Physiology

- 183** Antioxidant Mechanism and Lipid Peroxidation Patterns in Leaves and Petals of Marigold in Response to Drought Stress
| Zhiguo Tian, Fei Wang, Wene Zhang, Changming Liu, and Xiuming Zhao
- 193** Simulation of Year-round Plant Growth and Nutrient Uptake in *Rosa hybrida* over Flowering Cycles
| Wan Soon Kim and J. Heinrich Lieth
- 204** Flower Initiation and Development in *Cymbidium* by Night Interruption with Potassium and Nitrogen
| Hye Ryun An, Yoon Jin Kim, and Ki Sun Kim

Protected Horticulture

- 212** Optimization of Substrate Formulation and Mineral Nutrition during the Production of Vegetable Seedling Grafts
| Jong Myung Choi, Chiwon W. Lee, and Jong-Pil Chun
- 222** Application of Quadratic Models for Establishment of Adequate Temperature Ranges in Germination of Various Hot Pepper (*Capsicum annuum* L.) Cultivars
| Young Yeol Cho, Yong-Beom Lee, Myung-Min Oh, and Jung Eek Son

Genetics and Breeding

- 228** Identification of Korean Pear Cultivars Using Combinations of SCAR Markers
| Kang-Hee Cho, Il Sheob Shin, Se Hee Kim, Jeong-Hee Kim, Dae-Hyun Kim, Yong Uk Shin, and Hae-Sung Hwang
- 237** Identification of Monogenic Dominant Male Sterility and Its Suppressor Gene from an Induced Mutation Using a Broccoli (*Brassica oleracea* var. *italica*) Microspore Culture
| Jiha Kim and Soo-Seong Lee

Tissue Culture/Biotechnology

- 242** Protective Effects of 3,4-seco-lupane Type Triterpenes from *Acanthopanax senticosus* against Advanced Glycation Endproducts
| Hyun Young Kim, Dong Gu Lee, Ki Ho Lee, and Sanghyun Lee
- 247** Physiological Role of Endogenous S-adenosyl-L-methionine Synthetase in Chinese Cabbage
| Jae-Gyeong Yu, Gi-Ho Lee, and Young-Doo Park

Others

- 256** Species Relationships among *Allium* Species by ISSR Analysis
| Jae-Han Son, Kyong-Cheul Park, Sung-Il Lee, Jong-Hwa Kim, and Nam-Soo Kim
