

CONTENTS

The Editor's Field—Becoming Accustomed to Things	209
<i>Vincent M. Russo</i>	
Pathogenicity and Characterization of Geographically Distributed Isolates of <i>Erysiphe polygoni</i>	211
<i>Muhammad Abubakkar Azmat, Asif Ali Khan, Asif Saeed, Muhammad Ashraf, and Shahid Niaz</i>	
Growth, Antioxidant Enzymes Activities, and Proline Accumulation in Mustard Due to Nickel	223
<i>Rajeev Gopal and N. Nautiyal</i>	
Excessive Fertilization is Detrimental to Yield and Quality for Onion Grown on High Organic Matter Content Paddy Soils	235
<i>Jongtae Lee, Jaegi Song, and Sunyoung Lee</i>	
Soil Nutrient Content on Elemental Uptake and Distribution in Sweet Potatoes	245
<i>Nomfundo Mahlangeni, Roshila Moodley, and S. B. Jonnalagadda</i>	
SSR-Based DNA Barcodes as a Tool for Identification of Eggplant Genotypes	260
<i>Lakshmana Reddy Dhoranalapalli Chinnappareddy, Kiran Khandagale, Srikanth Hongasandra Srinivas Reddy, C. Kanupriya, Aswath Chennareddy, and T. H. Singh</i>	
Olive Mill Waste as a Substitute Growing Medium Component in Tomato Seedling and Crop Production	272
<i>Eva Sofiadou and Nikos G. Tzortzakis</i>	
Soil Amendment on Growth, Nodulation, Yield, Soil Health, and Economics of Cowpea	284
<i>P. K. Panda, Alok Nandi, P. K. Swain, S. K. Patnaik, and M. Patnaik</i>	
Nutrient Solutions on Yield and Quality of Basil and Cress	298
<i>J. A. Olfati, S. A. Khasmakhi-Sabet, and H. Shabani</i>
