

## Contents

Elevated temperature decouples anthocyanins and sugars in berries of Shiraz and Cabernet Franc _____	115
<i>V.O. Sadras and M.A. Moran</i>	
Influence of berry ripeness on concentration, qualitative composition and extractability of grape seed tannins _____	123
<i>A.B. Bautista-Ortín, P. Rodríguez-Rodríguez, R. Gil-Muñoz, E. Jiménez-Pascual, N. Busse-Valverde, A. Martínez-Cutillas, J.M. López-Roca and E. Gómez-Plaza</i>	
Impact of yeast on the aroma and flavour of Oregon Pinot Noir wine _____	131
<i>D.G. Takush and J.P. Osborne</i>	
Multivariate statistical approaches for wine classification based on low molecular weight phenolic compounds _____	138
<i>M.J. Cabrita, J. Aires-de-Sousa, M.D.R. Gomes da Silva, F. Rei and A.M. Costa Freitas</i>	
Whole-of-block experimentation for evaluating a change to canopy management intended to enhance wine quality _____	147
<i>K. Panten and R.G.V. Bramley</i>	
Effects of hot-water treatment, post-hot-water-treatment cooling and cold storage on the viability of dormant grafted grapevines under field conditions _____	158
<i>D. Gramaje and J. Armengol</i>	
Water-use efficiency in grapevine cultivars grown under controlled conditions: effects of water stress at the leaf and whole-plant level _____	164
<i>M. Tomás, H. Medrano, A. Pou, J.M. Escalona, S. Martorell, M. Ribas-Carbó and J. Flexas</i>	
Spatio-temporal dynamics of grape anthocyanin accumulation in a Tempranillo vineyard monitored by proximal sensing _____	173
<i>J. Baluja, M.P. Diago, P. Goovaerts and J. Tardaguila</i>	
Potassium concentration and pH inter-relationships in grape juice and wine of Chardonnay and Shiraz from a range of rootstocks in different environments _____	183
<i>R.R. Walker and D.H. Blackmore</i>	
Protein removal from a Chardonnay juice by addition of carrageenan and pectin _____	194
<i>M. Marangon, M. Lucchetta, D. Duan, V.J. Stockdale, A. Hart, P.J. Rogers and E.J. Waters</i>	
Mass spectrometry fragmentation pattern of coloured flavanol-anthocyanin and anthocyanin-flavanol derivatives in aged red wines of Rioja _____	203
<i>M.B. Sánchez-Ilárduya, C. Sánchez-Fernández, M. Vilorio-Bernal, D.M. López-Márquez, L.A. Berrueta, B. Gallo and F. Vicente</i>	
Assessment of grey mould ( <i>Botrytis cinerea</i> ) impact on phenolic and sensory quality of Bordeaux grapes, musts and wines for two consecutive vintages _____	215
<i>I. Ky, B. Lorrain, M. Jourdes, G. Pasquier, M. Fermaud, L. Gény, P. Rey, B. Doneche and P.-L. Teissedre</i>	
Effects of solar ultraviolet radiation and canopy manipulation on the biochemical composition of Sauvignon Blanc grapes _____	227
<i>S.M. Gregan, J.J. Wargent, L. Liu, J. Shinkle, R. Hofmann, C. Winefield, M. Trought and B. Jordan</i>	
Comparison of enzyme-linked immunosorbent assays and reverse transcription-polymerase chain reaction for the reliable detection of Australian grapevine viruses in two climates during three growing seasons _____	239
<i>F.E. Constable, J. Connellan, P. Nicholas and B.C. Rodoni</i>
