

CONTENTS

Review

- 483 Molecular tools and analytical approaches for the characterization of farm animal genetic diversity
J A Lenstra, L F Groeneveld, H Eding, J Kantanen, J L Williams, P Taberlet, E L Nicolazzi, J Sölkner, H Simianer, E Ciani, J F Garcia, M W Bruford, P Ajmone-Marsan, S Weigend
- 503 Copy number variation in the genomes of domestic animals
A Clop, O Vidal, M Amills

Articles

- 518 Whole-genome analysis for backfat thickness in a tropically adapted, composite cattle breed from Brazil
G Veneroni-Gouveia, S L Meirelles, D A Grossi, A C Santiago, T S Sonstegard, M E B Yamagishi, L K Matukumalli, L L Coutinho, M M Alencar, H N Oliveira, L C A Regitano
- 525 Microarray analysis of differential gene expression in sensitive and resistant pig to *Escherichia coli* F18
W B Bao, L Ye, Z Y Pan, J Zhu, Z D Du, G Q Zhu, X G Huang, S L Wu
- 535 Changes in gene expression in a porcine preadipocyte cell line during differentiation
T Matsumoto, I Nakajima, T Eguchi-Ogawa, Y Nagamura, N Hamasima, H Uenishi
- 545 Mapping and fine mapping of quantitative trait loci for the number of vertebrae in a White Duroc x Chinese Erhualian intercross resource population
D R Ren, J Ren, G F Ruan, Y M Guo, L H Wu, G C Yang, L H Zhou, L Li, Z Y Zhang, L S Huang
- 552 Characterization of the genetic diversity, structure and admixture of British chicken breeds
S Wilkinson, P Wiener, D Teverson, C S Haley, P M Hocking
- 564 Single-nucleotide polymorphisms in the promoter of the *growth hormone-releasing hormone receptor* gene are associated with growth and reproduction traits in chickens
W Liu, Y Yu, G Li, S Tang, Y Zhang, Y Wang, S Zhang, Y Zhang
- 570 Quantitative trait loci associated with chemical composition of the chicken carcass
K Nones, M C Ledur, E L Zanella, C Klein, L F B Pinto, A S A M T Moura, D C Ruy, E E Baron, M Ambo, R L R Campos, C Boschiero, D W Burt, L L Coutinho
- 577 Rapid genetic diversification within dog breeds as evidenced by a case study on Schnauzers
K Streitberger, M Schweizer, R Kropatsch, G Dekomien, O Distl, M S Fischer, J T Epplen, S T Hertwig

Short Communications

- 587 *PHLDA2* is an imprinted gene in cattle
K M Sikora, D A Magee, E W Berkowicz, P Lonergan, A C O Evans, F Carter, A Comte, S M Waters, D E MacHugh, C Spillane
- 591 Genetic variation in *PLAG1* associates with early life body weight and peripubertal weight and growth in *Bos taurus*
M Littlejohn, T Grala, K Sanders, C Walker, G Waghorn, K Macdonald, W Coppieters, M Georges, R Spelman, E Hillerton, S Davis, R Snell
- 595 SNP-based association mapping of the polled gene in divergent cattle breeds
D Seichter, I Russ, S Rothammer, J Eder, M Förster, I Medugorac
- 599 Genetic markers on BTA14 predictive for residual feed intake in beef steers and their effects on carcass and meat quality traits
A K Lindholm-Perry, L A Kuehn, W M Snelling, T P L Smith, C L Ferrell, T G Jenkins, D Andy King, S D Shackelford, T L Wheeler, H C Freetly
- 604 Allelic heterogeneity of Crooked Tail Syndrome: result of balancing selection?
A Sartelet, P Klingbeil, C K Franklin, C Fasquelle, S Géron, C M Isacke, M Georges, C Charlier
- 608 Association of *leptin* genotypes with beef cattle characteristics
G N Woronuk, F L Marquess, S T James, J Palmer, T Berryere, H Deobald, S Howie, P J Kononoff

Contents continued overleaf

- 611 A novel *USP9Y* polymorphism allowing a rapid and unambiguous classification of *Bos taurus* Y chromosomes into haplogroups
S Bonfiglio, A De Gaetano, K Tesfaye, V Grugni, O Semino, L Ferretti
- 614 Association analyses of porcine *SERPINE1* reveal sex-specific effects on muscling, growth, fat accretion and meat quality
F Weisz, H Bartenschlager, A Knoll, A Mileham, N Deeb, H Geldermann, S Čepica
- 620 Recombination rates across porcine autosomes inferred from high-density linkage maps
M Muñoz, E Alves, Y Ramayo-Caldas, J Casellas, C Rodríguez, J M Folch, L Silió, A I Fernández
- 624 Characterization of *cytochrome b* diversity in Chinese domestic horses
X P Yue, F Qin, M G Campana, D H Liu, C C Mao, X B Wang, X Y Lan, H Chen, C Z Lei
- 627 Replication and fine-mapping of a QTL for recurrent airway obstruction in European Warmblood horses
M Shakhisi-Niaei, J Klukowska-Rötzler, C Drögemüller, J Swinburne, C Ehrmann, D Saftic, A Ramseyer, V Gerber, G Dolf, T Leeb
- 632 Quantitative trait loci for resistance to infection in sheep using a live *Salmonella Abortusovis* vaccine
I Lantier, C R Moreno, P Berthon, G Sallé, F Pitel, L Schibler, A V Gautier-Bouchardon, R Boivin, J L Weisbecker, D François, J Bouix, E P Crihiu, J M Elsen, F Lantier
- 636 Replication and refinement of a quantitative trait locus influencing milk protein percentage on ovine chromosome 3
E García-Gámez, B Gutiérrez-Gil, J P Sánchez, J J Arranz
- 642 Molecular genetic characterization of ovine *CSN1S2* variants C and D reveal further important variability within *CSN1S2*
I J Giambra, G Erhardt
- Brief Notes
- 646 *De novo* mutation of the bovine *EDA* gene associated with anhidrotic ectodermal dysplasia in Japanese Black cattle
A Ogino, K Shimizu, Y Tanabe, M Morita
- 646 Single-nucleotide polymorphisms in the bovine *CD209* candidate gene for susceptibility to infection by *Mycobacterium avium* subsp. *paratuberculosis*
O. Ruiz-Larrañaga, M Iriondo, C Manzano, M Agirre, J M Garrido, J A Juste, A Estonba
- 647 Association of the polymorphism *g.8514C>T* in the *osteopontin* gene (*SPP1*) with milk yield in the dairy cattle breed Girolando
F de Mello, J A Cobuci, M F Martins, M V G B Silva, J B Neto
- 649 Confirmation of the association between a single nucleotide polymorphism in the porcine *LDHA* gene and average daily gain and correlated traits in Italian Large White pigs
L Fontanesi, L Buttazzoni, E Scotti, V Russo
- 650 Investigation of allele frequencies for Lavender foal syndrome in the horse
N A Gabreski, B Haase, C D Armstrong, O Distl, S A Brooks
- 650 Development of 23 microsatellite markers for assessing genetic variability in the tub gurnard (*Trigla lucerna* L.)
M D'Andrea, A Roncarati, P Melotti, M -T Scarano, F Pilla
- 651 Association between a polymorphism in the *IGF2* gene and finishing weight in a commercial rabbit population
L Fontanesi, G Mazzoni, S Bovo, A Frabetti, D Fornasini, S Dall'Olio, V Russo
