

CONTENTS

ORIGINAL ARTICLES

- 571 Competitive ability of some cover crop species against *Asystasia gangetica* and *Pennisetum polystachion*
B. Samedani, A.S. Juraimi, M.P. Anwar, M.Y. Rafii, S.A.S. Awadz and A.R. Anuar
- 583 The importance of solid cattle manure application on soil microorganisms in organic and conventional cultivation
L. Edesi, M. Järvan, M. Noormets, E. Lauringson, A. Adamson and E. Akk
- 595 Soil physical and hydrological properties under three biofuel crops in Ohio
C. Bonin, R. Lal, M. Schmitz and S. Wulfschleger
- 604 Efficacy, phytotoxicity and economics of different herbicides in aerobic rice
M.P. Anwar, A.S. Juraimi, A. Puteh, A. Man and M.M. Rahman
- 616 Root distribution patterns of white yam (*Dioscorea rotundata* Poir.): a field study
V.K. Hgaza, L.N. Diby, J.M. Herrera, U.R. Sangakkara and E. Frossard
- 627 The content and quality of protein in winter wheat grains depending on sulphur fertilization
M. Järvan, L. Edesi and A. Adamson
- 637 Potato yield response to foliar application of phosphorus as affected by soil moisture and available soil phosphorus
J.E. Ekelöf, H. Asp and E.S. Jensen
- 644 Yield and chemical composition of five common grassland species in response to nitrogen fertiliser application and phenological growth stage
C. King, J. McEniry, M. Richardson and P. O'kiely

SHORT COMMUNICATIONS

- 659 N release pattern from green manures can be modified through species composition
A.S. Dahlin and H. Marstorp
- 666 Evaluation of acibenzolar-S-methyl and other low-toxicity products for control of rose powdery mildew (*Podosphaera pannosa*) in greenhouses
M.-L. Herrero, B. Toppe and H. Eikemo
