

RESEARCH ARTICLES

Climate change model predicts 33 % rice yield decrease in 2100 in Bangladesh

M.R. Karim · M. Ishikawa · M. Ikeda · M.T. Islam 821

Forty percent revenue increase by combining organic and mineral nutrient amendments in Ugandan smallholder market vegetable production

S. Kearney · S.J. Fonte · A. Salomon · J. Six · K.M. Scow 831

A high resolution map of French soil organic carbon

J. Meersmans · M.P. Martin · E. Lacroix · S. De Baets · C. Jolivet · L. Boulonne · S. Lehmann · N.P.A. Saby · A. Bispo · D. Arrouays 841

Fifteen years of no till increase soil organic matter, microbial biomass and arthropod diversity in cover crop-based arable cropping systems

T.B. Sapkota · M. Mazzoncini · P. Bàrberi · D. Antichi · N. Silvestri 853

Rothamsted carbon model reveals technical options to maintain soil organic carbon under semi-arid climate

S. Nakamura · K. Hayashi · H. Omae · D. Fatondji · R. Tabo · H. Shinjo · A.K. Saidou · S. Tobita 865

A novel soil organic C model using climate, soil type and management data at the national scale in France

J. Meersmans · M.P. Martin · F. De Ridder · E. Lacroix · J. Wetterlind · S. De Baets · C. Le Bas · B.P. Louis · T.G. Orton · A. Bispo · D. Arrouays 873

Biodegradable mulch instead of polyethylene for weed control of processing tomato production

A. Cirujeda · J. Aibar · Á. Anzalone · L. Martín-Closas · R. Meco · M.M. Moreno · A. Pardo · A.M. Pelacho · F. Rojo · A. Royo-Esnal · M.L. Suso · C. Zaragoza 889

Participatory design of agricultural decision support tools: taking account of the use situations

M. Cerf · M.-H. Jeuffroy · L. Prost · J.-M. Meynard 899

Modelling spatial extension of vegetable land use in urban farms

M. Mawois · M. Le Bail · M. Navarrete · C. Aubry 911

Active canopy sensor-based precision N management strategy for rice

Y. Yao · Y. Miao · S. Huang · L. Gao · X. Ma · G. Zhao · R. Jiang · X. Chen · F. Zhang · K. Yu · M.L. Gnyp · G. Bareth · C. Liu · L. Zhao · W. Yang · H. Zhu 925

Temporal evolution of atrazine and metolachlor concentrations exported in runoff and subsurface water with vegetated filter strips

E. Caron · P. Lafrance · J.-C. Auclair 935
