## ORIGINAL ARTICLES

---

- 101 Heavy metal uptake and translocation by *Justicia gendarussa* Burm F. from textile sludge contaminated soil  
*N.M. Majid, M.M. Islam, M.E. Nap, M. Ghafoori and A. Abdu*
- 109 Effects of short-term treatment with various light intensities and hydroponic solutions on nitrate concentration of lettuce  
*W.K. Liu and Q.C. Yang*
- 114 Development of field-grown potato plants derived from meristem plants multiplied with different methods  
*M. Särekanno, J. Kadaja, K. Kotkas, V. Rosenberg and V. Eremeev*
- 125 Different pre-sprouting methods for early tuber harvest in potato (*Solanum tuberosum* L.)  
*J. Hogman*
- 132 Efficacy of mineral oil combined with insecticides for the control of aphid virus vectors to reduce potato virus Y infections in seed potatoes (*Solanum tuberosum*)  
*L.M. Hansen and S.L. Nielsen*
- 138 Effects of repeated clover undersowing, green manure ley and weed harrowing on weeds and yields in organic cereals  
*H. Sjørnsen, L.O. Brandsæter and J. Netland*
- 151 Predicting silage maize yield and quality in Sweden as influenced by climate change and variability  
*H. Eckersten, A. Herrmann, A. Kornher, M. Halling, E. Sindhøj and E. Lewan*
- 166 Effects of seedbed properties on crop emergence. 4. Inhibitory effects of oxygen deficiency  
*I. Håkansson, T. Keller, J. Arvidsson and T. Rydberg*
- 172 Predicting germination response of primed and non-primed seeds of five crops under field-variable temperature  
*Y. Tian, H. Zhang, P. Wang and D. Zhou*
- 179 Inoculation with the native *Rhizobium gallicum* 8a3 improves osmotic stress tolerance in common bean drought-sensitive cultivar  
*S. Sassi-Aydi, S. Aydi and C. Abdelly*

## SHORT COMMUNICATION

---

- 188 Increase of leaf tipburn in chervil and lettuce by restricting volume of growing medium  
*M. Olle*
