

CONTENTS

- Review**
- J. L. Domingo* 238–249 Polybrominated diphenyl ethers in food and human dietary exposure: A review of the recent scientific literature
- Research Papers**
- D. G. A. J. Hebels, K. M. Sveje, M. C. de Kok, M. H. M. van Herwijnen, G. G. C. Kuhnle, L. G. J. B. Engels, C. B. E. M. Vleugels-Simon, W. G. N. Mares, M. Pierik, A. A. M. Masclee, J. C. S. Kleinjans and T. M. C. M. de Kok* 95–103 Red meat intake-induced increases in fecal water genotoxicity correlate with pro-carcinogenic gene expression changes in the human colon
- B.-J. Chang, B.-J. Jang, T. G. Son, I.-H. Cho, F.-S. Quan, N.-H. Choe, S.-S. Nahm and J.-H. Lee* 104–108 Ascorbic acid ameliorates oxidative damage induced by maternal low-level lead exposure in the hippocampus of rat pups during gestation and lactation
- S.-H. Kim, I.-C. Lee, J.-H. Lim, C. Moon, C.-S. Bae, S.-H. Kim, D.-H. Shin, S.-C. Park, H.-C. Kim and J.-C. Kim* 109–115 Protective effects of pine bark extract on developmental toxicity of cyclophosphamide in rats
- Y.-J. Lee, H.-Y. Jeong, Y.-B. Kim, Y.-J. Lee, S. Y. Won, J.-H. Shim, M.-K. Cho, H.-S. Nam and S.-H. Lee* 116–123 Reactive oxygen species and PI3K/Akt signaling play key roles in the induction of Nrf2-driven heme oxygenase-1 expression in sulforaphane-treated human mesothelioma MSTO-211H cells
- M. Kurzawa-Zegota, M. Najafzadeh, A. Baumgartner and D. Anderson* 124–129 The protective effect of the flavonoids on food-mutagen-induced DNA damage in peripheral blood lymphocytes from colon cancer patients
- S. J. Ban, C. W. Rico, I. C. Um and M. Y. Kang* 130–134 Comparative evaluation of the hypolipidemic effects of hydroxyethyl methylcellulose (HEMC) and hydroxypropyl methylcellulose (HPMC) in high fat-fed mice
- W. Łuczaj, A. Stankiewicz-Kranc, E. Milewska, W. Roszkowska-Jakimiec and E. Skrzydlewska* 135–140 Effect of sweet grass extract against oxidative stress in rat liver and serum
- D. Şöhretoğlu, S. Sabuncuoğlu and Ü. Ş. Harput* 141–146 Evaluation of antioxidative, protective effect against H₂O₂ induced cytotoxicity, and cytotoxic activities of three different *Quercus* species
- D. Wang, X. Luo, Y. Zhong, W. Yang, M. Xu, Y. Liu, J. Meng, P. Yao, H. Yan and L. Liu* 147–154 Pu-erh black tea extract supplementation attenuates the oxidative DNA damage and oxidative stress in Sprague–Dawley rats with renal dysfunction induced by subchronic 3-methyl-2-quinoxalin benzenevinylketo-1,4-dioxide exposure
- L. Cariddi, F. Escobar, C. Sabini, C. Torres, E. Reinoso, A. Cristofolini, L. Comini, S. Núñez Montoya and L. Sabini* 155–161 Apoptosis and mutagenicity induction by a characterized aqueous extract of *Baccharis articulata* (Lam.) Pers. (Asteraceae) on normal cells

- M. J. Ramalhosa, P. Paíga, S. Morais, S. Ramos, C. Delerue-Matos and M. B. P. P. Oliveira 162–167 Polycyclic aromatic hydrocarbon levels in three pelagic fish species from Atlantic Ocean: Inter-specific and inter-season comparisons and assessment of potential public health risks
- Y. Yan, J.-Y. Yang, Y.-H. Mou, L.-H. Wang, Y.-N. Zhou and C.-F. Wu 168–174 Differences in the activities of resveratrol and ascorbic acid in protection of ethanol-induced oxidative DNA damage in human peripheral lymphocytes
- A. Q. Khan, R. Khan, W. Qamar, A. Lateef, F. Ali, M. Tahir, Muneeb-U-Rehman and S. Sultana K. Matsumoto and S.-i. Yokoyama 175–183 Caffeic acid attenuates 12-*O*-tetradecanoyl-phorbol-13-acetate (TPA)-induced NF- κ B and COX-2 expression in mouse skin: Abrogation of oxidative stress, inflammatory responses and proinflammatory cytokine production
- 184–190 Induction of uncoupling protein-1 and -3 in brown adipose tissue by kaki-tannin in type 2 diabetic NSY/Hos mice
- F. S. Reis, L. Barros, A. Martins and I. C. F. R. Ferreira 191–197 Chemical composition and nutritional value of the most widely appreciated cultivated mushrooms: An inter-species comparative study
- K. S. Arbon, C. M. Christensen, W. A. Harvey and S. J. Heggland 198–205 Cadmium exposure activates the ERK signaling pathway leading to altered osteoblast gene expression and apoptotic death in Saos-2 cells
- M. Pelin, S. Sosa, R. Della Loggia, M. Poli, A. Tubaro, G. Decorti and C. Florio 206–211 The cytotoxic effect of palytoxin on Caco-2 cells hinders their use for *in vitro* absorption studies
- C. S. Ivanoff, A. E. Ivanoff and T. L. Hottel 212–215 Gallium poisoning: A rare case report
- A. Montoro, J. M. Soriano, J. F. Barquintero, M. Almonacid, A. Montoro, G. Verdú, V. Sahuquillo, J. I. Villaescusa and N. Sebastià 216–221 Assessment *in vitro* of cytogenetic and genotoxic effects of propolis on human lymphocytes
- C. R. Nwokocha, D. U. Owu, M. I. Nwokocha, C. S. Ufearo and M. O. E. Iwuala 222–226 Comparative study on the efficacy of *Allium sativum* (garlic) in reducing some heavy metal accumulation in liver of wistar rats
- R. C. G. Martin, H. S. Aiyer, D. Malik and Y. Li 227–231 Effect on pro-inflammatory and antioxidant genes and bioavailable distribution of whole turmeric vs curcumin: Similar root but different effects
- P. Otero, A. Alfonso, P. Rodríguez, J. A. Rubiolo, J. M. Cifuentes, R. Bermúdez, M. R. Vieytes and L. M. Botana 232–237 Pharmacokinetic and toxicological data of spirulides after oral and intraperitoneal administration
- M. L. Signorini, M. Gaggiotti, A. Molineri, C. A. Chiericatti, M. L. Zapata de Basílico, J. C. Basílico and M. Pisani 250–257 Exposure assessment of mycotoxins in cow's milk in Argentina
- L. M. Estevinho, X. Feás, J. A. Seijas and M. Pilar Vázquez-Tato 258–264 Organic honey from *Trás-Os-Montes* region (Portugal): Chemical, palynological, microbiological and bioactive compounds characterization
- A. Naqshbandi, Md. W. Khan, S. Rizwan, S. u. Rehman and F. Khan 265–273 Studies on the protective effect of dietary fish oil on cisplatin induced nephrotoxicity in rats
- N. Radulović, N. Đorđević, M. Denić, M. M. G. Pinheiro, P. D. Fernandes and F. Boylan 274–279 A novel toxic alkaloid from poison hemlock (*Conium maculatum* L., Apiaceae): Identification, synthesis and antinociceptive activity
- A. Raiola, G. Meca, J. Mañes and A. Ritieni 280–287 Bioaccessibility of Deoxynivalenol and its natural co-occurrence with Ochratoxin A and Aflatoxin B₁ in Italian commercial pasta
- G. Meca, J. Mañes, G. Font and M.-J. Ruiz 288–294 Study of the potential toxicity of commercial crispy breads by evaluation of bioaccessibility and bioavailability of minor *Fusarium* mycotoxins
- F. Qi, A. Li, Y. Inagaki, H. Xu, D. Wang, X. Cui, L. Zhang, N. Kokudo, G. Du and W. Tang 295–302 Induction of apoptosis by cinobufacini preparation through mitochondria- and Fas-mediated caspase-dependent pathways in human hepatocellular carcinoma cells
- W. Zhao, X. Jiang, W. Deng, Y. Lai, M. Wu and Z. Zhang 303–309 Antioxidant activities of *Ganoderma lucidum* polysaccharides and their role on DNA damage in mice induced by cobalt-60 gamma-irradiation
- S. N. Desai, D. K. Patel, R. V. Devkar, P. V. Patel and A. V. Ramachandran 310–314 Hepatoprotective potential of polyphenol rich extract of *Murraya koenigii* L.: An *in vivo* study
- X. Cui, B. Wang, Z. Zong, S. Liu and W. Xing 315–319 The effects of chronic aluminum exposure on learning and memory of rats by observing the changes of Ras/Raf/ERK signal transduction pathway
- C. Theobald, A. Chatterjee and G. Horgan 320–327 A hierarchical Bayesian mixture model for repeated dietary records

F. de Andrade, C. A. C. de Albuquerque, M. Maraschin and E. L. da Silva	328–334	Safety assessment of yerba mate (<i>Ilex paraguariensis</i>) dried extract: Results of acute and 90 days subchronic toxicity studies in rats and rabbits
G. C. dos Santos, L. M. Mendonça, G. A. Antonucci, A. C. dos Santos, L. M. G. Antunes and M. de Lourdes Pires Bianchi	335–340	Protective effect of bixin on cisplatin-induced genotoxicity in PC12 cells
T. J. McQuistan, M. T. Simonich, M. M. Pratt, C. B. Pereira, J. D. Hendricks, R. H. Dashwood, D. E. Williams and G. S. Bailey	341–352	Cancer chemoprevention by dietary chlorophylls: A 12,000-animal dose–dose matrix biomarker and tumor study
M. A. M. El Gendy, A. A. Soshilov, M. S. Denison and A. O. S. El-Kadi	353–362	Harmaline and harmalol inhibit the carcinogen-activating enzyme CYP1A1 via transcriptional and posttranslational mechanisms
G. Li, Y. Ye, J. Kang, X. Yao, Y. Zhang, W. Jiang, M. Gao, Y. Dai, Y. Xin, Q. Wang, Z. Yin and L. Luo	363–372	L-Theanine prevents alcoholic liver injury through enhancing the antioxidant capability of hepatocytes
B. Lynch, R. R. Simon, F. M. van Otterdijk, H. H. Emmen, M. L. F. Giuseppin and C. Kemme-Kroonsberg	373–384	Subchronic toxicity evaluation of potato protein isolates
H. R. Jeong, S. J. Lim and J. Y. Cho	385–389	Monitoring and risk assessment of pesticides in fresh omija (<i>Schizandra chinensis</i> Baillon) fruit and juice
J. Walker, B. Rohm, R. Lang, M. W. Pariza, T. Hofmann and V. Somoza	390–398	Identification of coffee components that stimulate dopamine release from pheochromocytoma cells (PC-12)
G. Perelló, J. Gómez-Catalán, V. Castell, J. M. Llobet and J. L. Domingo	399–408	Assessment of the temporal trend of the dietary exposure to PCDD/Fs and PCBs in Catalonia, over Spain: Health risks
T. Han, G. Cheng, Y. Liu, H. Yang, Y.-t. Hu and W. Huang	409–414	In vitro evaluation of tectoridin, tectorigenin and tectorigenin sodium sulfonate on antioxidant properties
N. Arnal, M. J. Tacconi de Alaniz and C. A. Marra	415–422	Natural polyphenols may ameliorate damage induced by copper overload
J. Kim, G. K. Jayaprakasha, R. M. Uckoo and B. S. Patil	423–430	Evaluation of chemopreventive and cytotoxic effect of lemon seed extracts on human breast cancer (MCF-7) cells
M. L. Tan, H. K. Tan, C. E. Oon, M. Kuroyanagi and T. S. T. Muhammad	431–444	Identification of genes involved in the regulation of 14-deoxy-11,12-didehydroandrographolide-induced toxicity in T-47D mammary cells
