Special Issue Papers

Reforestation degraded agricultural landscapes with <i>Eucalypts</i> : Effects on carbon storage and soil fertility after 26 years R.J. Harper, A.E.A. Okom, A.T. Stilwell, M. Tibbett, C. Dean, S.J. George, S.J. Sochacki, C.D. Mitchell, S.S. Mann and K. Dods (Australia, UK)	3
The Ridgefield Multiple Ecosystem Services Experiment: Can restoration of former agricultural land achieve multiple outcomes? M.P. Perring, R.J. Standish, K.B. Hulvey, L. Lach, T.K. Morald, R. Parsons, R.K. Didham and R.J. Hobbs (Australia)	14
A sustainable agricultural landscape for Australia: A review of interlacing carbon sequestration, biodiversity and salinity management in agroforestry systems S.J. George, R.J. Harper, R.J. Hobbs and M. Tibbett (Australia, UK)	28
The agronomic relevance of arbuscular mycorrhizas in the fertility of Australian extensive cropping systems M.H. Ryan and J.A. Kirkegaard (Australia)	37
Using insect diversity for determining land restoration development: Examining the influence of grazing history on ant assemblages in rehabilitated pasture E.R. Williams, D.R. Mulligan, P.D. Erskine and K.P. Plowman (Australia).....	54
Ecohydrological feedback as a land restoration tool in the semi-arid Brigalow Belt, QLD, Australia S. Arnold, C. Thornton and T. Baumgartl (Australia)	61
Assessing the development of rehabilitated grasslands on post-mined landforms in north west Queensland, Australia H. Vickers, M. Gillespie and A. Gravina (Australia).....	72
Examining the Australian context for post-mined land rehabilitation: Reconciling a paradigm for the development of <i>natural</i> and <i>novel</i> ecosystems among post-disturbance landscapes D. Doley, P. Audet and D.R. Mulligan (Australia).....	85
