

REVIEW PAPERS

Evaluating the performance of endophytes in farm systems to improve farmer outcomes – a review
Errol R. Thom, Alison J. Popay, David E. Hume, Lester R. Fletcher 927

Increased productivity of rainfed lowland rice cropping systems of the Mekong region
Shu Fukai, Makara Ouk 944

RESEARCH PAPERS

Adapting wheat sowing dates to projected climate change in the Australian subtropics: analysis of crop water use and yield
Davide Cammarano, José Payero, Bruno Basso, Lydia Stefanova, Peter Grace 974

Analysis of early vigour in twenty modern cultivars of bread wheat (*Triticum aestivum* L.)
M. L. Maydup, C. Graciano, J. J. Guiamet, E. A. Tambussi 987

Powdery mildew resistance genes in barley varieties grown in Australia
Antonin Dreiseitl, Gregory Platz 997

Molecular mapping and validation of *Rlm1* gene for resistance to *Leptosphaeria maculans* in canola (*Brassica napus* L.)
Rosy Raman, Belinda Taylor, Kurt Lindbeck, Neil Coombes, Denise Barbulescu, Phil Salisbury, Harsh Raman 1007

Effects of relative emergence time and water deficit on the timing of fruit dispersal in *Raphanus raphanistrum* L.
M. S. Taghizadeh, M. E. Nicolas, R. D. Cousens 1018

Resistance of New Zealand dairy pastures to ingress of summer-active annual grass weeds
K. N. Tozer, E. Minneé, C. A. Cameron 1026

Drought resistance at the seedling stage in the promising fodder plant tедера (*Bituminaria bituminosa* var. *albomarginata*)
Kevin Foster, Megan H. Ryan, Daniel Real, Padmaja Ramankutty, Hans Lambers 1034
