Genesis and Geography of Soils

Comparison of the Results of Soil Profiles' Diagnostics Performed
in Three Classification Systems

M. I. Gerasimova and N. B. Khitrov 1087

Soil Evolution and Climate Dynamics in Dry Steppes of the Privolzhskaya
Upland during the Last 3500 Years

V. A. Demkin, T. S. Demkina, T. E. Khomutova, and M. V. El'tsov 1095

Soil Chemistry

Mineralization of Organic-Matter Labile Fragments in the Humus-Accumulative
Horizon of Soddy-Podzolic Soil

S. Ya. Trofimov, A. S. Lazarev, and A. D. Fokin 1110

Changes in the Distribution of Chemical Elements throughout the Profile
of a Soddy-Podzolic Soil after the Long-Term Application of Sewage Sludge

M. S. Malinina 1120

Mathematical Description of the Dynamics of ^{12}C and ^{14}C in the Soil Humus

V. V. Galitskii and I. V. Ivanov 1129

Physicochemical Simulation of the Ion Exchange between Humus Acids
and Cations of Different Valencies

V. N. Shoba and K. V. Chudnenko 1138

Soil Biology

Microbiological and Micromorphological Characteristics of Extremely
Arid Desert Soils in the Ili Depression (Kazakhstan)

O. V. Kutovaya, E. S. Vasilenko, and M. P. Lebedeva 1147

Mycelial Fungi in Saline Soils of the Western Transbaikal Region

M. L. Georgieva, M. P. Lebedeva, and E. N. Bilanenko 1159

Changes in the Structure of the Microbial Community under the Influence
of Oil and Radioactive Pollution

A. L. Stepanov, O. B. Tsvetnova, and S. N. Panikov 1169
