

INTERNATIONAL JOURNAL OF TROPICAL INSECT SCIENCE

Volume 32 Number 1 March 2012

Foreword

C. Borgemeister 1

Research Papers

Pollination efficiency of *Apis mellifera adansonii* (Hymenoptera: Apidae) on *Callistemon rigidus* (Myrtaceae) flowers at Dang (Ngaoundéré, Cameroon)
S. Fameni Tope, F.-N.T. Fohouo and D. Brückner 2

Species composition of fruit flies (Diptera: Tephritidae) in the Citrus Museum at the Agricultural Research Centre (ARC), Kade, Ghana
C.N. Foba, K. Afreh-Nuamah, M.K. Billah and D. Obeng-Ofori 12

Establishment of exotic parasitoids of the coffee berry borer *Hypothenemus hampei* (Coleoptera: Curculionidae: Scolytinae) in Colombia through farmer participatory research
L.F. Aristizábal, H.M. Salazar, C.G. Mejía, M. Jiménez, A.E. Bustillo and S.P. Arthurs 24

A study on phlebotomine sandflies (Diptera: Phlebotomidae) in Dickwella, southern Sri Lanka, an endemic focus for cutaneous leishmaniasis
W.T.S. Dammini Premachandra, D.P.C. Senarath, M.P.K.S.K. de Silva and B.S. Lalanthika Peiris 32

Use of the entomopathogenic fungi *Metarhizium anisopliae*, *Cordyceps bassiana* and *Isaria fumosorosea* to control *Diaphorina citri* (Hemiptera: Psyllidae) in Persian lime under field conditions
R. Lezama-Gutiérrez, J. Molina-Ochoa, O. Chávez-Flores, C.A. Ángel-Sahagún, S.R. Skoda, G. Reyes-Martínez, M. Barba-Reynoso, O. Rebolledo-Domínguez, G.M.L. Ruíz-Aguilar and J.E. Foster 39

Interaction between the aphid parasitoid *Lysiphlebus testaceipes* (Hymenoptera: Aphidiidae) and its hyperparasitoid *Syrphophagus africanus* (Hymenoptera: Encyrtidae)
K.K. Ganyo, A. Kodjo Tounou, C. Agboton, E.A. Dannon, B.R. Pittendrigh and M. Tamò 45

Life history of *Oplostomus haroldi* (Coleoptera: Scarabaeidae) under laboratory conditions and a description of its third instar larva
A.T. Fombong, F. Haas, P.N. Ndegwa and L.W. Irungu 56

Influence of crowding and diet on the development and survival of the ladybird *Brumoides suturalis* (Coleoptera: Coccinellidae) reared on two aphid species
M. Bista, G. Mishra and Omkar 64
