

**Ecology, Biological Processes and Plant Interactions**

Modification of the biophysical water function to predict the change in soil mineral nitrogen concentration resulting from concurrent mineralization and denitrification

A. Georgallas, J. Dessureault-Rompré, B. J. Zebarth, D. L. Burton, C. F. Drury, and C. A. Grant 695–710

**Composition and Chemical Processes**

Forms of phosphorus in composts and in compost-amended soils following incubation

B. Gagnon, I. Demers, N. Ziadi, M. H. Chantigny, L.-É. Parent, T. A. Forge, F. J. Larney, and K. E. Buckley 711–721

**Physical Processes and Interfaces**

The effects of dual porosity on transport and retardation in peat: A laboratory experiment

F. Rezanezhad, J. S. Price, and J. R. Craig 723–732

**Genesis, Landscape Processes and Relationships**

Cartographie numérique de la capacité maximale de sorption du phosphore des sols à l'échelle de la parcelle agricole à l'aide de variables auxiliaires

M. Quenum, M. C. Nolin, et M. Bernier 733–750

**Contamination and Environmental Stewardship**

Insecticides (dimethoate and lambda-cyhalothrin) for soybean aphid control – are they toxic to earthworms? Evidence from laboratory and field bioassays

J. K. Whalen, H. Benslim, and A. Vanasse 751–758

Controlled release fertilizer product effects on potato crop response and nitrous oxide emissions under rain-fed production on a medium-textured soil

B. J. Zebarth, E. Snowdon, D. L. Burton, C. Goyer, and R. Dowbenko 759–769

**Management for Agricultural, Forestry and Urban Uses**

Sustaining agronomic productivity and quality of a Vertisolic soil (Vertisol) under soybean-safflower cropping system in semi-arid central India

C. Srinivasarao, B. Venkateswarlu, R. Lal, A. K. Singh, S. Kundu, K. P. R. Vittal, S. K. Sharma, R. A. Sharma, M. P. Jain, and G. R. Chary 771–785

Effet in vitro de la roche verte de Gangila sur les propriétés physico-chimiques des sols sableux de l'hinterland de Kinshasa (RD Congo)

R. K. Kasongo, P. Kanyankogote, A. Verdoodt, G. Baert, M. Dumon, et E. Van Ranst 787–797

Tamarack and black spruce adventitious root patterns are similar in their ability to estimate organic layer depths in northern temperate forests

T. J. Veverica, E. S. Kane, and E. S. Kasischke 799–802

**Agrometeorology**

Temperature trends in the semiarid prairie of southwestern Saskatchewan revisited

H. Cutforth and D. Judiesch 803–806
