Topic Issue: Current research in China

Issue Editors: Dan Zhu and Qingming Luo

Editorial

Dan Zhu and Qingming Luo

Current research on photonics and lasers in medicine in China 1

Announcements

Upcoming issues in 2013/2014 – Call for Papers 5

Pater Leander Fischer Prize 2013 – Extension of application deadline 7

Obituary

In Memory of Prof. Isaac Kaplan (1919–2012) 9

Magazine section

Snapshots 13

Reviews

Timon Cheng-Yi Liu, Xing-Er Li and Song-Hao Liu
Photobiomodulation – The Chinese approaches and advances in clinical application 19

Zhichao Fan and Xunbin Wei
In vivo* flow cytometry: A powerful optical technology to detect circulating tumor cells and diagnose cancer metastasis *in vivo 27

Original contributions

Jing Wang, Rui Shi, Yang Zhang and Dan Zhu
Ear skin optical clearing for improving blood flow imaging 37

Zhenlin Zhan, Xianzeng Zhang, Wenqing Guo and Shusen Xie

Assessment of composition changes in demineralization and remineralization of human dentin using Raman spectroscopy 45

Yingying Zhao, Qin Li, Xiao-Ming Hu and Dong-Fang Yang

An LED-induced fluorescence detection system with integrated on-chip lens based on microfluidic chips technology 51

Short note

Yi Yuan, Zhongjiang Chen, Sihua Yang and Da Xing
Photoacoustic microscopy imaging – From a single erythrocyte to a vascular network 59

Technical note

Deyong Kang, Meifang Xu, Shanghai Jiang, Shuangmu Zhuo, Xiaoqin Zhu, Shusen Xie and Jianxin Chen
Multi-photon microscopic imaging of inflammatory fibroid polyps 65

Case report

Margherita Gobbo, Giulia Ottaviani, Rossana Bussani, Gabriele Pozzato and Matteo Biasotto
Methotrexate-induced oral mucositis in rheumatoid arthritis disease: Therapeutic strategy in a case report 71

Congress announcement

LASER World of PHOTONICS—DGLM Application Panel: Unmet Needs in Biophotonics and Laser Medicine 77

Congresses 2013 79
