2/13

Editorial

- 45 **Surgery spring sounds: topic justifies**
F. M. Riegler

Main Topic

- 49 **Editorial**
E. O. Scharnagl
- 50 **Examining and choosing patients for body contouring after massive weight loss**
E. Scharnagl, M. Wiedner, H. Koch
- 57 **Approach to the upper body after massive weight loss**
E. Scharnagl, H. Koch, M. Wiedner, S. Spindel
- 66 **Approach to the lower body after massive weight loss: the Innsbruck experience with abdomino-torso and thigh-contouring after massive weight loss**
Ulrich M. Rieger, Gabriel Djedovic, Thomas Bauer, Gerhard Pierer
- 75 **Complications in body-contouring procedures with special regard to massive weight loss patients: personal observations**
M. Wiedner, I. Justich, A. Vasilyeva, D. Parvizi, S. Spindel, L.-P. Kamolz, E. Scharnagl
- 80 **The epidemiology of obesity**
H. B. Kitzinger, B. Karle

Review

- 83 **Clinico-pathological findings in stage-I primary spontaneous pneumothorax: analysis of 19 cases and literature review**
M. Migliore, G. Di Maria, A. Criscione, D. Rassl

Original Articles

- 87 **For how many times can a partially absorbable monofilament mesh be sterilized? In vitro experimental study**
O. V. Ozkan, A. Aydogan, S. Akkucuk, M. Aydin, E. Nacar, B. Ozer, S. Mistikoglu, I. Yetim, A. Gokce
- 93 **Impact of resection techniques on postoperative lung function parameters in pulmonary metastasectomy**
K. Hoetzenecker, T. Schweiger, C. Nikolowsky, L. Lehmann, F. Gittler, H. J. Ankersmit, W. Klepetko, G. Lang

Original Scientific Paper

- 98 **When to repair ischemic mitral valve regurgitation? An algorithmic approach**
F. Roshanali, A. Vedadian, S. Shoar, S. Sandoughdaran, M. Naderan, M. H. Mandegar

Case Reports

- 106 **Long-term survival after hand-assisted laparoscopic approach of primary retroperitoneal mucinous cystadenocarcinoma in male: case report and review of literature**
J.-P. Shiau, C.-T. Wu, C.-C. Chin, C.-K. Chuang
- 110 **Minimally invasive right pneumonectomy: case report**
F. Augustin, T. Schmid

Selected Commentary

- 113 **Selected commentary to "Esophageal sphincter device for gastroesophageal reflux disease"**
L. Bonavina
