

Temporal and spatial dynamics of nitrogen and phosphorus in surface water and sediments of a transboundary river located in the semi-arid region of Turkey M. Varol .....	1
The effect of <i>Sarcopoterium spinosum</i> on soil and vegetation characteristics A.G. Mohammad and S.H. Alseekh .....	10
Application of data-driven evidential belief functions to landslide susceptibility mapping in Jinbu, Korea S. Lee, J. Hwang and I. Park .....	15
A study on the annual runoff change and its relationship with water and soil conservation practices and climate change in the middle Yellow River basin C. Shi, Y. Zhou, X. Fan and W. Shao .....	31
Spatial distribution and risk assessment of phosphorus loss potential in urban–suburban soil of Lishui, China L. Huang, H. Wang, Y. Li and S. Lu .....	42
Land exploitation resulting in soil salinization in a desert–oasis ecotone Y. Wang and Y. Li .....	50
A micromorphological view through a Namaqualand termitaria ( <i>Heuweltjie</i> , a Mima-like mound) M.L. Francis, F. Ellis, J.J.N. Lambrechts and R.M. Poch .....	57
Risk assessment of soil erosion in different rainfall scenarios by RUSLE model coupled with Information Diffusion Model: A case study of Bohai Rim, China L. Xu, X. Xu and X. Meng .....	74
Morpho-dynamic evolution patterns of Subcarpathian Prahova River (Romania) I. Armaş, D.E. Gogoşne Nistoran, G. Osaci-Costache and L. Braşoveanu .....	83
Spatial correlation between the composition of the clay fraction and contents of available phosphorus of an Oxisol at hillslope scale L.A. Camargo, J. Marques Júnior, G.T. Pereira and L.R.F. Alleoni .....	100
Identifying causes and controls of river bank erosion in a British upland catchment A.J. Henshaw, C.R. Thorne and N.J. Clifford .....	107
Adsorption characteristics of modified sand for the removal of hexavalent chromium ions from aqueous solutions: Kinetic, thermodynamic and equilibrium studies S. Yadav, V. Srivastava, S. Banerjee, C.-H. Weng and Y.C. Sharma .....	120
The effect of tillage practices on grain yield and water use efficiency F.T. Berhe, A. Fanta, T. Alamirew and A.M. Melesse .....	128
Rainfall erosivity in Brazil: A review P.T.S. Oliveira, E. Wendland and M.A. Nearing .....	139
Corrigendum to: Soil nutrient dynamics during podzol development under lowland temperate rain forest in New Zealand [Catena (2012) 50–62] B.L. Turner, L.M. Condrón, A. Wells and K.M. Andersen .....	148
