Issue 6

2013

## REVIEW PAPER

Waterlogging in Australian agricultural landscapes: a review of plant responses and crop models  
*Ruth E. Shaw, Wayne S. Meyer, Ann McNeill, Stephen D. Tyerman*

549

## RESEARCH PAPERS

Evaluating the contribution of take-all control to the break-crop effect in wheat  
*R. A. Lawes, V. V. S. R. Gupta, J. A. Kirkegaard, D. K. Roget*

563

Mapping quantitative trait loci for pre-harvest sprouting resistance in white-grained winter wheat line CA 0431  
*X. L. Miao, Y. J. Zhang, X. C. Xia, Z. H. He, Y. Zhang, J. Yan, X. M. Chen*

573

Yield components of maize as affected by short shading periods and thinning  
*A. Cerrudo, J. Di Matteo, E. Fernandez, M. Robles, L. Olmedo Pico, F. H. Andrade*

580

Phosphorus starvation boosts carboxylate secretion in P-deficient genotypes of *Lupinus angustifolius* with contrasting root structure  
*Ying L. Chen, Vanessa M. Dunbabin, Art J. Diggle, Kadambot H. M. Siddique, Zed Rengel*

588

Can summer-active perennial species improve pasture nutritive value and sward stability?  
*S. G. Clark, G. N. Ward, G. A. Kearney, A. R. Lawson, M. R. McCaskill, B. J. O'Brien, M. C. Raeside, R. Behrendt*

600

Climate change and broadacre livestock production across southern Australia.  
2. Adaptation options via grassland management  
*Afshin Ghahramani, Andrew D. Moore*

615

Field hydroponics assessment of salt tolerance in *Cenchrus ciliaris* (L.): growth, yield, and maternal effect  
*Mónica Ruiz, Edith Taleisnik*

631
