Volume: 66 / Number: 4 / November 2013 / ISSN: 1364-727X

ORIGINAL RESEARCH

- Page 461 Detection of progesterone in bovine milk using an electrochemical immunosensor
H Y Zhang, X Y Du, Q Liu, C Xia and L W Sun
- Page 468 Effect of nisin-producing *Lactococcus lactis* starter cultures on the inhibition of two pathogens in ripened cheeses
B D Bello, G Zeppa, D M Bianchi, L DeCastelli, A Traversa, S Gallina, J D Coisson, M Locatelli, F Travaglia and L Cocolin
- Page 478 Effect of inulin addition on the sensorial properties of reduced-fat fresh cheese
B Juan, A Zamora, F Quintana, B Guamis and A J Trujillo
- Page 484 The effect of selected hydrocolloids on the rheological properties of processed cheese analogues made with vegetable fats during the cooling phase
Z Hanáková, F Buřka, V Pavlínek, L Hudečková and R Janiš
- Page 490 Effects of different prebiotic stabilisers and types of molasses on physicochemical, sensory, colour and mineral characteristics of probiotic set yoghurt
O B Karaca
- Page 498 The effect of natural and liquid smokes on the benzo[a] pyrene content and quality parameters of Circassian cheese
P Aydinol and T Ozcan
- Page 505 Influence of carboxymethylcellulose on the physicochemical, rheological and sensory attributes of a low-fat Domiati cheese
A M A Elhamid
- Page 512 Effect of *Penicillium roqueforti* and incorporation of whey cheese on volatile profiles and sensory characteristics of mould-ripened Civil cheese
S Cakmakci, E Dagdemir, A A Hayaloglu, M Gurses, B Cetin and D Tahmas-Kahyaoglu
- Page 527 The physicochemical, microbiological, organoleptic properties and antioxidant activities of functional cream cheeses fortified with lutein
Ö Tokuşoğlu
- Page 535 The effect of using an exopolysaccharide-producing culture on the physicochemical properties of low-fat and reduced-fat Kasar cheeses
T Şanlı, A Gursel, E Şanlı, E Acar and M Benli
- Page 543 Suitability of selected autochthonous lactic acid bacteria cultures for Pecorino Sardo Dolce cheese manufacturing: influence on microbial composition, nutritional value and sensory attributes
N P Mangia, M A Murgia, G Garau, F Fancello and P Deiana
- Page 552 A dual-acidification process for the manufacture of direct-acidified Cottage cheese
S Makhai, S K Kanawjia and A Giri
- Page 562 Impact of physiological state of starter culture on ripening and flavour development of Swiss–Dutch-type cheese
M Mikš-Krajnik, A Babuchowski and I Białobrzewski
- Page 570 Effect of total milk solid content adjusted by adding ultrafiltered milk retentate on quality of set mango yoghurt
N M N K Narayana and V K Gupta
- Page 576 Preservation of pre-cut white cheese by modified atmosphere packaging
C Kirkin, G Gunes and M Kilic-Akyilmaz
- Page 587 Moisture sorption isotherms of dietetic Rabri at different storage temperatures
G Ghayal, A Jha, J K Sahu, A Kumar, A Gautam, R Kumar and P Rasane
- Page 595 Hygienic and physicochemical quality characterisation of artisanal and industrial Pecorino Calabrese cheese
O Campolo, F V Romeo, A Attinà, L Zappalà and V Palmeri

BOOK REVIEWS
