

Contents

Survey of peanut levels in selected Irish food products bearing peanut allergen advisory labels <i>O.N. Robertson, J.O'B. Hourihane, B.C. Remington, J.L. Baumert and S.L. Taylor</i>	1467
Survey of South African fruit juices using a fast screening HILIC-MS method <i>M.A. Stander, W. Kühn and N.F. Hiten</i>	1473
A novel multi-commutated method for the determination of hydroxytyrosol in enriched foods using mercaptopropionic acid-capped CdTe quantum dots <i>E.J. Llorent-Martínez, L. Molina-García, M.L. Fernández-de Córdoba, J.L.M. Santos, S.S.M. Rodrigues and A. Ruiz-Medina</i>	1485
Acrylamide concentrations in potato crisps in Europe from 2002 to 2011 <i>S.J. Powers, D.S. Mottram, A. Curtis and N.G. Halford</i>	1493
Formation and mitigation of heterocyclic aromatic amines in fried pork <i>Y. Zhang, C. Yu, J. Mei and S. Wang</i>	1501
Dietary exposure of Hong Kong adults to fatty acid esters of 3-monochloropropane-1,2-diol <i>H.Y. Chung, S.W.C. Chung, B.T.P. Chan, Y.Y. Ho and Y. Xiao</i>	1508
Occurrence of flunixin residues in bovine milk samples from the USA <i>L.W. Kissell, R.E. Baynes, J.E. Riviere and G.W. Smith</i>	1513
Selective androgen receptor modulators: <i>in vitro</i> and <i>in vivo</i> metabolism and analysis <i>E. de Rijke, M.L. Essers, J.C.W. Rijk, M. Thevis, T.F.H. Bovee, L.A. van Ginkel and S.S. Sterk</i>	1517
Potential risk and sodium content of children's ready-to-eat foods distributed at major amusement parks in Korea <i>N.-Y. Lee, S.-Y. Park, Y.-M. Lee, S.-Y. Choi, S.-H. Jeong, M.-S. Chung, Y.-S. Chang, S.-H. Choi, D.-H. Bae and S.-D. Ha</i>	1527
Levels of lead, arsenic, mercury and cadmium in clays for oral use on the Dutch market and estimation of associated risks <i>N.M. Reeuwijk, W.N.M. Klerx, M. Kooijman, L.A.P. Hoogenboom, I.M.C.M. Rietjens and M.J. Martena</i>	1535
Uptake of arsenic species by turnip (<i>Brassica rapa</i> L.) and lettuce (<i>Lactuca sativa</i> L.) treated with roxarsone and its metabolites in chicken manure <i>L.X. Huang, L.X. Yao, Z.H. He, C.M. Zhou, G.L. Li, B.M. Yang and Y.F. Li</i>	1546
Dietary exposure and health risk assessment for 11 minerals and trace elements in Yaoundé: the Cameroonian Total Diet Study <i>M.-M. Gimou, U.R. Charondièrre, J.-C. Leblanc, L. Noël, T. Guérin and R. Pouillot</i>	1556
Polycyclic aromatic hydrocarbons in milk powders marketed in Argentina and Brazil <i>V.A. Garcia Londoño, L.P. Garcia, V.M. Scussel and S. Resnik</i>	1573
Toxicokinetic model assessment on the dechlorination of dietary toxaphene CHB-62 into CHB-44 in Atlantic salmon (<i>Salmo salar</i> L.) <i>M.H.G. Berntsen, E.J. Lock, M.J. Zeilmaker and J.C.H. Van Eijkeren</i>	1581
Occurrence of selected perfluorinated alkyl acids in lunch meals served at school canteens in Italy and their relevance for children's intake <i>E. Dellatte, G. Brambilla, S.P. De Filippis, A. di Domenico, J. Pulkerabova, C. Eschauzier, S. Klenow, G. Heinemeyer and P. de Voogt</i>	1590
Analysis of the neurotoxin anisatin in star anise by LC-MS/MS <i>C. Mathon, B. Bongard, M. Duret, D. Orтели, P. Christen and S. Bieri</i>	1598
Fatty acid esters of fumonisins: first evidence of their presence in maize <i>C. Falavigna, I. Lazzaro, G. Galaverna, P. Battilani and C. Dall'Asta</i>	1606
Mycotoxins in corn and wheat silage in Israel <i>J.A. Shimshoni, O. Cuneah, M. Suljok, R. Krska, N. Galon, B. Sharir and A. Shlosberg</i>	1614

- Fumonisin in plant-origin food and fodder – a review
M. Bryła, M. Roszko, K. Szymczyk, R. Jędrzejczak, M.W. Obiedziński and J. Sękul 1626
- Comparison of the sequestering properties of yeast cell wall extract and hydrated sodium calcium aluminosilicate in three *in vitro* models accounting for the animal physiological bioavailability of zearalenone
A. Yiannikouris, H. Kettunen, J. Apajalahti, E. Pennala and C.A. Moran 1641
- ESI-MS and MS/MS identification of the first ceramide analogues of fumonisin B₁ mycotoxin from a *Fusarium verticillioides* culture following RP-HPLC separation
T. Bartók, Á. Szécsi, K. Juhász, M. Bartók and Á. Mesterházy 1651
- Determination of the variability of both hydrophilic and lipophilic toxins in endemic wild bivalves and carnivorous gastropods from the Southern part of Chile
R. Zamorano, M. Marín, F. Cabrera, D. Figueroa, C. Contreras, A. Barriga, N. Lagos and C. García 1660
