## Plant Cultivation

- Breeding of Triticale for Baking Purposes  
*A. I. Grabovets, A. V. Krokmal', G. F. Dremucheva, and O. E. Karchevskaya* 197
- Sources of Economic Traits for Multirow Barley Selection in the Volga-Vyatka Region  
*I. N. Shchennikova, L. P. Kokina, and A. V. Kunilova* 203
- Barley Forages for Modern Global Ruminant Agriculture: A Review  
*Akbar Nikkhah* 206
- Horizontal Gene Transfer from Wild Species of Soya (*G. soja*)  
to Cultural Species (*G. max* (L.) Merr.)  
*A. Ya. Ala, V. S. Ala, T. P. Tuchkova, E. T. Chekrysheva,  
L. K. Kashuba, and Van Lan* 214
- Reproduction of Shallot Virus X in Absence of Its Own Active Suppressor  
Protein of RNA Silencing  
*A. V. Arkhipov, A. G. Solov'yev, and V. K. Vishnichenko* 218
- Microsatellite Analysis of the Transgenic Forms of Sugar Beets  
*A. S. Hussein, A. A. Nalbandyan, N. N. Bogacheva,  
E. N. Vasil'chenko, and T. P. Fedulova* 222
- Effect of Growth Regulators and Explant on Plant Regeneration  
of *Solanum lycopersicum* L. var. *cerasiforme*  
*Mahmoud Otroshy, Zahra Khalili, Mohammad Ali Ebrahimi,  
Mojtaba Khayam Nekoui, and Kosar Moradi* 226
- Specificity of the Response of Pea Varieties of Different Morphotypes to Changes  
in the Hydrodynamic Conditions During the Vegetation Period  
*L. V. Omel'yanyuk* 236
- Apple Breeding for the High Commercial and Consumer Appeal of Fruit  
*E. N. Sedov and Z. M. Serova* 241
- 

## Fodder Production

- Impact of Atmospheric Precipitation on Forage Yield of Alfalfa  
in Droughty Conditions of the Volga Region  
*V. A. Naidovich, T. N. Popova, and V. A. Krupnov* 245
- 

## Plant Protection

- Protection of Millet Crops against Weeds  
*A. B. Laptiev and V. I. Dolzhenko* 249
- 

## Agriculture

- Role of Crop Rotations in Improving the Stability of Grain and Forage Production  
in the Forest Steppe of the Southern Urals  
*A. V. Vrazhnov and L. P. Shatalina* 254
-

## Soil Science Agrochemistry

- Prospects for the Use of Strains of the Genus *Trichoderma* to Obtain Vermicomposts with Fungicides and Growth-Stimulating Properties  
*V. S. Sadykova and A. V. Kurakov* 257
- Changes in Density and Aeration of the Plowed Layer in Common Chernozem under the Influence of Compound Compost  
*I. S. Belyuchenko and D. A. Slavgorodskaya* 261
- 

## Modeling

- Features of Studying of Dynamic Processes in Agrolandscape  
*D. A. Ivanov, V. A. Tyulin, O. V. Karaseva, M. V. Rublyuk, and N. V. Grits* 264
- 

## Animal Husbandry

- Level of Main Immunoglobulin Classes in Blood Serum of First-Calf Heifers with Different Methods of Housing and Origin  
*M. A. Eremina, I. Yu. Ezdakova, N. A. Popov, and V. L. Liepa* 268
- Phenomenological Models of Behavior of Domestic Pigs toward Humans  
*V. S. Lankin* 271
- Investigation of Biochemical Indices of Female Rabbit Blood with Addition of an Antioxidant to the Ration  
*D. D. Adzhiev, I. F. Draganov, A. A. Ivanov, and I. A. Gal'yanova* 278
- 

## Storage and Processing of Agricultural Products

- Identification of *Lactobacillus delbrueckii* subsp. *bulgaricus* in Starter Culture in Production of Cultured Milk Products  
*V. I. Semenikhin and S. A. Yurik* 281
- Rheologic Characteristics of Cryolabile Vegetative Raw Materials  
*G. I. Kasyanov and I. E. Syazin* 284
- 

## Mechanization

- Investigation of the Soil Translocation Process Depending on the Angle of Setting the Leveler Moldboard  
*N. T. Manabaev* 287
- 
-
