Many ways to manage a weed

Seminar summary

Jackie Steel 30

What the world of weeds can learn from molecular plant breeding

J.W. Forster, N.O.I. Cogan and D. McLaren 31

Aquatic weeds in Victoria: Where and why are they a problem, and how are they being controlled?

Tony M. Dugdale, Trevor D. Hunt and Daniel Clements 35

Proposed new invasive species management legislation for Victoria

Jan-Willem de Milliano 41

Minimising invasive plant spread using the nursery industry national plant labelling guidelines

Anthony G. Kachenko 42

Biological control of bridal creeper in southern Victoria: research to community action

Greg Lefoe and Matthew Stephenson 45

Weeders need more powerful advocates

Andrew Cox 47

Research Reports

Identification of, and further evidence for the indigenous status of two weedy bladder ketmia species (*Hibiscus trionum* complex, Malvaceae); and the search for Australia's inland sea

Stephen B. Johnson and Lyn A. Craven 50

A successful model for community-driven research: the Hieracium Control Trust in New Zealand.

Pauline Syrett, Lindsay Smith, David Scott and Sue Aspinall 57
