A. SCHMITT, I. L. BISUTTI, E. LADURNER, M. BENUZZI, B. SAUPHANOR, J. KIENZLE, D. ZINGG, K. UNENDORF-SPAHN, E. FRITSCH, J. HUBER, J. A. JEHLE

The occurrence and distribution of resistance of codling moth to *Cydia pomonella* granulovirus in Europe

641–649

A. KNIGHT, E. BASOALTO, R. HILTON, F. MOLINARI, B. ZOLLER, R. HANSEN, G. KRAWCZYK, L. HULL

Monitoring oriental fruit moth (Lepidoptera: Tortricidae) with the Ajar bait trap in orchards under mating disruption

650–660

R. SIEDE, W. DYRBA, T. AUGUSTIN, A. WIEGAND, R. ELLINGHAUS

Boron fertilizers in rape – a risk for honey bees?

661–667

E. BOHNENBLUST, J. BREINING, G. ROTH, J. TOOKER

Corn pith weevil, *Geraeus penicillus* (Coleoptera: Curculionidae), in transgenic, insect-resistant and conventional field corn hybrids

668–672

L. BLONDIN, L. BADISCO, C. PAGÈS, A. FOUCART, A.-M. RISTERUCCI, C. S. BAZELET, J. V. BROECK, H. SONG, S. O. ELY, M.-P. CHAPUIS

Characterization and comparison of microsatellite markers derived from genomic and expressed libraries for the desert locust

673–683

M. A. M. MOSTAFA, J. VLASÁK, F. SEHNAL

Activities of modified Cry3A-type toxins on the red flour beetle, *Tribolium castaneum* (Herbst)

684–692

D. M. M. COURCELLES, L. BUTTON, E. ELLE

Bee visit rates vary with floral morphology among highbush blueberry cultivars (*Vaccinium corymbosum* L.)

693–701

P. TIXIER, D. DAGNEAUX, G. MOLLOT, F. VINATIER, P.-F. DUYCK

Weeds mediate the level of intraguild predation in arthropod food webs

702–710

R. PENG, K. CHRISTIAN

Do weaver ants affect arthropod diversity and the natural-enemy-to-pest ratio in horticultural systems?

711–720
