

RESEARCH ARTICLE

- 893 **Physicochemical characterization of enzymatically hydrolyzed heat treated granular starches** T.-H. Mu, O. K. Abegunde, H.-N. Sun, F.-M. Deng and M. Zhang
- 902 **Molecular structure of carboxymethyl starch in dilute aqueous sodium chloride solutions** Ž. Stojanović, K. Jeremić and S. Jovanovic
- 912 **Effect of potassium and magnesium treatment on physicochemical and rheological properties of potato, corn and spelt starches and on thermal generation of free radicals** T. Fortuna, D. Gałkowska, M. Bączkiewicz, K. Szkabar, I. Tartanus, M. Łabanowska and M. Kurdziel
- 923 **Physicochemical properties of starch isolated from eight different varieties of Korean sweet potatoes** J. Kim, C. Ren and M. Shin
- 931 **Synthesis and characterization of silver nanoparticles using water-soluble starch and its antibacterial activity on *Staphylococcus aureus*** G. A. Valencia, L. C. de Oliveira Vercik, R. Ferrari and A. Vercik
- 938 **Characterization of the physicochemical and thermal properties of unexplored starches with potential industrial uses from six Brazilian maize landraces** J. C. Raguzzoni, J. A. Lopes da Silva, M. Maraschin and I. Delgadillo
- 947 **Preparation, physicochemical properties, and in vitro digestibility of cross-linked resistant starch from pea starch** M. Shi, F. Gu, J. Wu, S. Yu and Q. Gao
- 954 **Influence of temperature on the apparent molar masses and sizes of pregelatinized wx corn in aqueous media determined using asymmetrical flow field-flow fractionation** S. Juna, S. Hayden, M. Damm, C. O. Kappe and A. Huber
- 962 **Physicochemical characterization of dextrins prepared with amylases from sorghum malt** K. Ba, C. Blecker, S. Danthine, E. Tine, J. Destain and P. Thonart
- 
- 969 **Glycaemic response to frozen stored wholemeal-flour rolls enriched with fresh sourdough and whey proteins** B. Borczak, E. Sikora, M. Sikora and D. Ćurić

RESEARCH ARTICLE

- 976 **Study of the physicochemical and functional characterization of quinoa and kañiwa starches** M. E. Steffolani, A. E. León and G. T. Pérez
- 984 **Rheological properties of reactive extrusion modified waxy starch and waxy starch-polyacrylamide copolymer gels** J. Xu and V. L. Finkenstadt
- 991 **Isolation and characterization of *Alstroemeria hookeri* ssp. *hookeri* starch in comparison with potato starch** Z. Correa, A. Zúñiga, C. Garfias and L. A. Bello-Pérez
- 999 **Characterization of highly substituted, cationic amphiphilic starch derivatives: Dynamic surface tension and intrinsic viscosity** S. Genest, S. Schwarz, K. Petzold-Welcke, T. Heinze and B. Voit
- 1011 **Physicochemical, functional, textural and colour characteristics of starches isolated from four taro cultivars of North-East India** N. Sit, S. Misra and S. C. Deka
- 1022 **Starch physicochemical properties of rice accessions and their association with molecular markers** M. D. Asante, S. K. Offei, V. Gracen, H. Adu-Dapaah, E. Y. Danquah, R. Bryant and A. McClung
- 1029 **Formation of nano- and micro-structures of various botanical sources of native starches investigated employing asymmetrical flow field-flow fractionation** S. Juna and A. Huber
- 1038 **Comparative study on physicochemical properties of ensete and water caltrop with other root, tuber, and legume starches** S. Lertphanich, R. Wansuksri, T. Tran, G. Da, L. H. Nga, D. Dufour, K. Piyachomkwan and K. Sriroth
- 1051 **Moisture sorption characteristics of Greek durum wheat semolina** E. P. Pollatos, K. A. Riganakos and P. G. Demertzis
- 1061 **Physical properties and structure of enzymatically synthesized amylopectin analogs** J. Ciric, A. J. J. Woortman, P. Gordiichuk, M. C. A. Stuart and K. Loos
- 1069 **Association between allelic variation at the *Waxy* locus and starch physicochemical properties using single-segment substitution lines in rice (*Oryza sativa* L.)** B. Teng, Y. Zhang, J. Wu, X. Cong, R. Wang, Y. Han and Z. Luo
