

Contents

(Abstracts/contents list published in Biological Abstracts, Biological & Agricultural Index, Current Advances in Biological Sciences, Current Contents AB & ES, Ecological Abstracts, EMBiology, Environmental Abstracts, Field Crop Abstracts, Geo Abstracts, Geobase, Geographical Abstracts–Economic Geography, TROPAG and RURAL database, Science Citation Index). Also covered in the abstract and citation database SCOPUS®. Full text available on ScienceDirect®.

Special Issue:

Dual-purpose maize

**Guest Editors: Elaine Grings
Olaf Erenstein
Michael Blümmel**

Potential for dual-purpose maize varieties to meet changing maize demands: Overview O. Erenstein, M. Blümmel and E. Grings (Ethiopia, India, USA)	1
Maize is a critically important source of food, feed, energy and forage in the USA T.J. Klopfenstein, G.E. Erickson and L.L. Berger (USA)	5
Maize stover use and sustainable crop production in mixed crop-livestock systems in Mexico J. Hellin, O. Erenstein, T. Beuchelt, C. Camacho and D. Flores (Mexico, Ethiopia)	12
Maize for food and feed in East Africa-The farmers' perspective H. De Groote, G. Dema, G.B. Sonda and Z.M. Gitonga (Kenya, Ethiopia, Tanzania)	22
Assessing the potential of dual-purpose maize in southern Africa: A multi-level approach S. Homann-Kee Tui, M. Blümmel, D. Valbuena, A. Chirima, P. Masikati, A.F. van Rooyen and G.T. Kassie (Zimbabwe, India, Ethiopia, Netherlands)	37
Identification of a superior dual purpose maize hybrid among widely grown hybrids in South Asia and value addition to its stover through feed supplementation and feed processing S. Anandan, A.A. Khan, D. Ravi, M.S.B. Rao, Y. Ramana Reddy and M. Blümmel (India)	52
A note on suitable laboratory stover quality traits for multidimensional maize improvement D. Ravi, A.A. Khan, M. Saibutcharao and M. Blümmel (India)	58
A note on the correlations between maize grain and maize stover quantitative and qualitative traits and the implications for whole maize plant optimization Y. Ramana Reddy, D. Ravi, Ch. Ramakrishna Reddy, K.V.S.V. Prasad, P.H. Zaidi, M.T. Vinayan and M. Blümmel (India)	63
Integrated maize management options to improve forage yield and quality on smallholder farms in Kenya B.A. Lukuyu, A.J. Murdoch, D. Romney, D.M. Mwangi, J.G.M. Njuguna, A. McLeod and A.N. Jama (Kenya, UK)	70
Genetic variability of maize stover quality and the potential for genetic improvement of fodder value B.T. Ertiro, S. Twumasi-Afriyie, M. Blümmel, D. Friesen, D. Negera, M. Worku, D. Abakemal and K. Kitenge (Ethiopia, India, Tanzania)	79
Relationship between the performance of parental inbred lines and hybrids for food-feed traits in maize (<i>Zea mays</i> L.) in Ethiopia B.T. Ertiro, H. Zeleke, D. Friesen, M. Blümmel and S. Twumasi-Afriyie (Ethiopia, Mexico, India)	86
Genetic variability of tropical maize stover quality and the potential for genetic improvement of food-feed value in India P.H. Zaidi, M.T. Vinayan and M. Blümmel (India)	94
A note on potential candidate genomic regions with implications for maize stover fodder quality M.T. Vinayan, R. Babu, T. Jyothsna, P.H. Zaidi and M. Blümmel (India)	102
Potential for dual-purpose maize varieties to meet changing maize demands: Synthesis M. Blümmel, E. Grings and O. Erenstein (India, USA, Ethiopia)	107
