

CONTENTS

Positive versus negative environmental impacts of tree encroachment in South Africa <i>S. Grellier, D. Ward, J.-L. Janeau, P. Podwojewski, S. Lorentz, L. Abbadie, C. Valentin and S. Barot</i> .....	1
Do isolated gallery-forest trees facilitate recruitment of forest seedlings and saplings in savanna? <i>A.F. Azihou, R. Glèlè Kakai and B. Sinsin</i> .....	11
Season and light affect constitutive defenses of understory shrub species against folivorous insects <i>P. Karolewski, M.J. Giertych, M. Żmuda, A.M. Jagodziński and J. Oleksyn</i> .....	19
Reindeer grazing has contrasting effect on species traits in <i>Vaccinium vitis-idaea</i> L. and <i>Bistorta vivipara</i> (L.) Gray <i>F. Lindwall, T. Vowles, A. Ekblad and R.G. Björk</i> .....	33
Testing Cort-Fitness and Cort-Adaptation hypotheses in a habitat suitability gradient for roe deer <i>G. Escribano-Avila, N. Pettorelli, E. Virgós, C. Lara-Romero, J. Lozano, I. Barja, F.S. Cuadra and M. Puerta</i> .....	38
Changes in seed rain across Atlantic Forest fragments in Northeast Brazil <i>C.G. Freitas, C. Dambros and J.L.C. Camargo</i> .....	49
Relation between climatic factors, diet and reproductive parameters of Little Terns over a decade <i>J.A. Ramos, P. Pedro, A. Matos and V.H. Paiva</i> .....	56
Forest herb layer response to long-term light deficit along a forest developmental series <i>J. Plue, B. Van Gils, A. De Schrijver, C. Peppler-Lisbach, K. Verheyen and M. Hermy</i> .....	63
Experimental and observational evidence reveals that predators in natural environments do not regulate their prey: They are passengers, not drivers <i>T.C.R. White</i> .....	73
Latitudinal trends in body length distributions of European darkling beetles (Tenebrionidae) <i>S. Fattorini, R. Lo Monaco, A. Di Giulio and W. Ulrich</i> .....	88
Distribution and ecological consequences of ploidy variation in <i>Artemisia sieberi</i> in Iran <i>A. Jalili, M. Rabie, H. Azarnivand, J.G. Hodgson, H. Arzani, Z. Jamzad, Y. Asri, B. Hamzehee, F. Ghasemi, S.M. Hesamzadeh Hejazi and R. Abbas-Azimi</i> .....	95
Demographic variation and conservation of the narrow endemic plant <i>Ranunculus weyleri</i> <i>J. Cursach, A. Besnard, J. Rita and H. Fréville</i> .....	102
Sowing different mixtures in dry acidic grassland produced priority effects of varying strength <i>C. Plückers, U. Rascher, H. Scharr, P. von Gillhaussen, C. Beierkuhnlein and V.M. Temperton</i> .....	110
