■ Original Articles

Magda D, Gleizes B, Jarry M

Maternal effect on seed survival and emergence in *Cytisus scoparius*: an experimental approach 927

Morcatty TQ, El Bizri HR, Carneiro HCS, Biasizzo RL, Alméri CRO, Silva ES, Rodrigues FHG, Figueira JEC

Habitat loss and mammalian extinction patterns: are the reserves in the Quadrilátero Ferrífero, southeastern Brazil, effective in conserving mammals? 935

Ye X, Wang T, Skidmore AK

Spatial pattern of habitat quality modulates population persistence in fragmented landscapes 949

Cheng H, Ren W, Ding L, Liu Z, Fang C

Responses of a rice–wheat rotation agroecosystem to experimental warming 959

Satakhun D, Gay F, Chairungsee N, Kasemsap P, Chantuma P, Thanisawanyangkura S, Thaler P, Epron D

Soil CO₂ efflux and soil carbon balance of a tropical rubber plantation 969

Dudinszky N, Ghermandi L

Fire as a stimulant of shrub recruitment in northwestern Patagonian (Argentina) grasslands 981

Kang W, Hoffmeister M, Martin EA, Steffan-Dewenter I, Han D, Lee D

Effects of management and structural connectivity on the plant communities of organic vegetable field margins in South Korea 991

Carthew SM, Jones KMW, Lawes M

Responses of small vertebrates to linear clearings in a South Australian woodland 1003

Bernal V, Espadaler X

Invasive and socially parasitic ants are good bioindicators of habitat quality in Mediterranean forest remnants in northeast Spain 1011

Helama S, Arentoft BW, Collin-Haubensak O, Hyslop MD, Brandstrup CK, Mäkelä HM, Tian Q, Wilson R

Dendroclimatic signals deduced from riparian versus upland forest interior pines in North Karelia, Finland 1019

Gao Y, Giese M, Brueck H, Yang H, Li Z

The relation of biomass production with leaf traits varied under different land-use and precipitation conditions in an Inner Mongolia steppe 1029

Yoo S, Kwak D-A, Cui G, Lee W-K, Kwak H, Ito A, Son Y, Jeon S

Estimation of the ecosystem carbon budget in South Korea between 1999 and 2008 1045

Tsuyuzaki S, Narita K, Sawada Y, Harada K

Recovery of forest-floor vegetation after a wildfire in a *Picea mariana* forest 1061

Potapov AM, Semenina EE, Kurakov AV, Tiunov AV

Large ¹³C/¹²C and small ¹⁵N/¹⁴N isotope fractionation in an experimental detrital foodweb (litter–fungi–collembolans) 1069

Crespí AL, Ferreira M, Fonseca TF, Marques CP

Structural and floristic behaviors in East Timor forest vegetation 1081

■ Note and Comment

Kuo C-C, Wang C-F, Jeng-I Tsai, Feng F-L, Huang K-W

Altitudinal variation in body size in *Abacarus panticis* Keifer (Acari: Eriophyidae) 1091
