

(Abstracted / indexed in: AGRICOLA, Agris, BIOBASE, BIOSIS, BioBusiness, CAB Abstracts, CSA Database, Current Contents Search, Food Science and Technology Abstracts, Foodline: Food Science and Technology, Global Health, Inside Conferences, SCISEARCH, UnCover). Also covered in the abstract and citation database SciVerse Scopus®. Full text available on SciVerse ScienceDirect®.

Genetics, Animal Genetic Resources and Breeding

Regular Paper

Pedigree analysis of the Hungarian Thoroughbred population

Á. Bokor, D. Jónás, B. Ducro, I. Nagy, J. Bokor and M. Szabari. 1

Ruminant Nutrition

Regular Paper

Adipose tissue and muscle fatty acid profiles of steers fed red clover silage with and without flaxseed

C. Mapiye, T.D. Turner, D.C. Rolland, J.A. Basarab, V.S. Baron, T.A. McAllister, H.C. Block, B. Uttaro, J.L. Aalhus and M.E.R. Dugan 11

Non-Ruminant Nutrition

Regular Paper

Water requirements of liquid-fed heavy pigs: Effect of water restriction on growth traits, animal welfare and meat and ham quality

E. Nannoni, G. Martelli, M. Cecchini, G. Vignola, M. Giammarco, G. Zaghini and L. Sardi. 21

Behaviour, Health and Welfare

Regular Papers

Heat stress assessment by swine related vocalizations

S. Ferrari, A. Costa and M. Guarino 29

Assessment of test-retest reliability of animal-based measures on growing pig farms

D. Temple, X. Manteca, A. Dalmau and A. Velarde 35

Livestock Farming Systems and Management

Regular Papers

Evaluation of equations to predict body composition in Nellore bulls

L.F. Costa e Silva, S.C. Valadares Filho, E. Detmann, M.I. Marcondes, P.P. Rotta, L.F. Prados and D. Zanetti 46

A multilevel model with clustered management practices differentiating dairy herd environments in southeastern Sicily

E. Raffrenato, R.W. Blake, P.A. Oltenacu, M. Gambina and G. Licitra 58

Comparison of the performance of Holstein-Friesian and Jersey x Holstein-Friesian crossbred dairy cows within three contrasting grassland-based systems of milk production

E.R. Vance, C.P. Ferris, C.T. Elliott, H.M. Hartley and D.J. Kilpatrick 66

Vegetation-type effects on performance and meat quality of growing Engadine and Valaisian Black Nose sheep grazing alpine pastures

H. Willems, M. Kreuzer and F. Leiber 80

Growth Physiology

Short Communication

Relationship between milk fatty acid composition and the expression of lipogenic genes in the mammary gland of dairy cows

N. Mach, R.M.A. Goselink, J. van Baal, L. Kruijt, A.M. van Vuuren and M.A. Smits. 92
