

General Reviews

Edited by Richard F. Tester

REVIEW

- | | | |
|-------|--|--|
| 1 | Perspectives on the history of research on starch Part V: On the conceptualization of amylopectin structure | K. Seetharaman and E. Bertoft |
| <hr/> | | |
| 8 | Evolution of the development of how starch is biosynthesized | J. F. Robyt and R. Mukerjea |
| 22 | Medium and high substituted carboxymethyl starch: Synthesis, characterization and application | T. Szychaj, K. Wilpiszewska and M. Zdanowicz |
| 34 | Starch-modifying enzymes of lactic acid bacteria – structures, properties, and applications | P. Petrova, K. Petrov and G. Stoyancheva |
| 48 | Thermal degradation and stability of starch under different processing conditions | X. Liu, Y. Wang, L. Yu, Z. Tong, L. Chen, H. Liu and X. Li |
| 61 | Thermoplastic starches: Properties, challenges, and prospects | A. M. Nafchi, M. Moradpour, M. Saeidi and A. K. Alias |
| <hr/> | | |
| 73 | Rheological behavior of starch-based biopolymer mixtures in selected processed foods | M. Z. I. Sarker, M. A. Elgadir, S. Ferdosh, M. J. H. Akanda, P. Aditiawati and T. Noda |
| <hr/> | | |
| 82 | Current advances of chemical and physical starch-based hydrogels | C. Xiao |
| 89 | Potentials of tropical starches as pharmaceutical excipients: A review | O. A. Odeku |

Contents

Volume 65, No. 2, January 2013

REVIEW

- 107 **Perspectives on the history of research on starch Part VI: *Postscriptum*** K. Seetharaman and E. Bertoft
-

RESEARCH ARTICLE

- 112 **Effects of amylose content on the paste properties and emulsification of octenyl succinic starch esters** X. Song, Q. Zhao, Z. Li, D. Fu and Z. Dong
- 123 **Studies on the morphological, crystalline, thermal properties of an under utilized starch from yam *Dioscoreae zingiberensis* C. H. Wright** Q. Zhou, W. Shi, X. Meng and Y. Liu
- 134 **Environmental friendly polysaccharide modification - rheological properties of oxidized starches water systems** A. Ptaszek, M. Lukasiwicz and S. Bednarz
- 146 **Xylanase immobilization on functionalized polyaniline support by covalent attachment** S. Madakbaş, Ö. Daniş, S. Demir and M. V. Kahraman
- 151 **Enzymatic hydrolysis of *Canna indica*, *Manihot esculenta* and *Xanthosoma sagittifolium* native starches below the gelatinization temperature** D. Perez-Rea, C. Rojas, S. Carballo, W. Aguilar, B. Bergenstahl and L. Nilsson
- 162 **Composition, structure, and physicochemical properties of sweet potato starches isolated by sour liquid processing and centrifugation** F.-M. Deng, T.-H. Mu, M. Zhang and O. K. Abegunde
- 172 **Characterization of hydrogel synthesized from natural polysaccharides blend grafted acrylamide using microwave (MW) and ultraviolet (UV) techniques** M. Sorour, M. El-Sayed, N. A. El Moneem, H. A. Talaat, H. Shalaan and S. E. Marsafy
- 179 **Optimization of the production of a maltooligosaccharides producing amylase from the alkalophilic *Streptomyces lonarensis* strain NCL 716 using SVR Modeling** T. K. Sharma, V. A. Bhadane, L. S. Kumar, M. V. Rele, G. Bhawar and I. Rahman

SHORT COMMUNICATION

- 186 **Extraction and identification of internal granule proteins from waxy wheat starch** S. Wang, M. E. Hassani, B. Crossett and L. Copeland
