

Compost Science & Utilization

Volume 21, Number 2, 2013

CONTENTS

EDITORIAL

- Summer Perspectives 75
Frederick C. Michel, Jr.

RESEARCH

- Peanut Straw Decomposition Products Promoted by Chemical Additives and Their Effect on Enzymatic Activity and Microbial Functional Diversity in Red Soil 76
Ming Liu, Zhongpei Li, and Xiucui Zhai
- Effects of Planting Density and Treatment with Vermicompost on the Morphological Characteristics of Oriental Beech (*Fagus orientalis* Lipsky.) 87
Atilla Atik
- Transport of Metals (Al, Fe) and Trace Elements (Cu, Mo, Ni, and Zn) through Intact Soil Cores Amended with Fresh or Composted Beef Cattle Manure for Nine Years 99
Jim John Miller, Bruce Beasley, and Craig Drury
- An Assessment of Bacterial Populations in a Static Windrow Compost Pile 110
Joshua S. MacCready, Nathan J. Elbert, Ann B. Quinn, and Beth A. Potter
