

Agricultural and Forest Entomology

Volume 15, Number 1, February 2013

Contents

Original Articles

- 1 Dispersal and edge behaviour of bark beetles and predators inhabiting red pine plantations
Arnaud Costa, Min A, Celia K. Boone, Alexander P. Kendrick, Robert J. Murphy, William C. Sharpee, Kenneth F. Raffa and John D. Reeve
- 12 Habitat functionality for the ecosystem service of pest control: reproduction and feeding sites of pests and natural enemies
Felix J. J. A. Bianchi, Nancy A. Schellhorn and Saul A. Cunningham
- 24 Does the presence of grassy strips and landscape grain affect the spatial distribution of aphids and their carabid predators?
Diab Al Hassan, Ewen Georgelin, Thomas Delattre, Françoise Burel, Manuel Plantegenest, Pavel Kindlmann and Alain Butet
- 34 Spatio-temporal dynamics of an *Ips acuminatus* outbreak and implications for management
Fernanda Colombari, Martin L. Schroeder, Andrea Battisti and Massimo Faccoli
- 43 Bioclimatic analyses of distributions of a parasitoid *Peristenus digoneutis* and its host species *Lygus* spp. in Europe and North America
Tim Haye, Owen Olfert, Ross M. Weiss, Tara D. Gariepy, Bruce Broadbent and Ulrich Kuhlmann
- 56 Influence of flood-stress on ambrosia beetle host-selection and implications for their management in a changing climate
Christopher M. Ranger, Michael E. Reding, Peter B. Schultz and Jason B. Oliver
- 65 Biology and monitoring of *Dryocosmus kuriphilus* on *Castanea sativa* in Southern Italy
Umberto Bernardo, Luigi Iodice, Raffaele Sasso, Valerio A. Tutore, Pasquale Cascone and Emilio Guerrieri
- 77 Novel management to enhance spider biodiversity in existing grass buffer strips
Robin J. Blake, Ben A. Woodcock, Duncan B. Westbury, Peter Sutton and Simon G. Potts
- 86 Modified pheromone traps help reduce bycatch of bark-beetle natural enemies
Ana Martín, Iñaki Etxebeste, Gema Pérez, Gonzalo Álvarez, Estela Sánchez and Juan Pajares
- 98 Ants protect conifer seedlings from feeding damage by the pine weevil *Hylobius abietis*
Vítězslav Maňák, Henrik Nordenhem, Niklas Björklund, Lisette Lenoir and Göran Nordlander
- Short Communication*
- 106 Can imitation companion planting interfere with host selection by *Brassica* pest insects?
David R. George, Rosemary H. Collier and Diane M. Whitehouse
