

CONTENTS

- Wang B., Liu W., Xue Q., Dang T., Gao C., Chen J., Zhang B.:
Soil water cycle and crop water use efficiency after long-term nitrogen fertilization
in Loess Plateau 1
- Tao Y., Gu W., Chen J., Tao J., Xu Y.J., Zhang H.:
The influence of land use practices on earthworm communities in saline agriculture
soils of the west coast region of China's Bohai Bay 8
- Bohdálková L., Čuřík J., Kuběna A.A., Bůzek F.:
Dynamics of methane fluxes from two peat bogs in the Ore Mountains, Czech Republic 14
- Kramberger B., Gselman A., Podvršnik M., Kristl J., Lešnik M.:
Environmental advantages of binary mixtures of *Trifolium incarnatum*
and *Lolium multiflorum* over individual pure stands 22
- Khaledian M.R., Mailhol J.C., Ruelle P., Dejean C.:
Effect of cropping strategies on the irrigation water productivity of durum wheat 29
- Stanisavljević R., Milenković J., Djokić D., Terzić D., Petrović M., Đukanović L., Dodig D.:
Drying of meadow fescue seeds of different moisture contents: Changes in dormancy
and germination 37
- Milošević T., Milošević N.:
Response of young apricot trees to natural zeolite, organic and inorganic fertilizers 44
