

# European Journal of Agronomy

Vol. 46

CONTENTS

APRIL 2013

(Abstracts/contents list published in: AGRICOLA, CABS (Current Awareness in Biological Sciences), Biobase, CAB International, INIST Pascal Database, Chemical Abstracts, Current Contents (Agricultural, Biological and Environmental Sciences), Ecological Abstracts, Geobase. Also covered in the abstract and citation database SCOPUS®. Full text available on ScienceDirect®)

## Regular Articles

- Evaluation of cover-cropping managements on productivity and N-utilization efficiency of kenaf (*Hibiscus cannabinus* L.), under different nitrogen fertilization rates and soil types  
E.L. Tigka, D.F. Beslemes, N.G. Danalatos and S. Tzortzios ..... 1
- Changes in soil quality and plant available water capacity following systems re-design on commercial vegetable farms  
F. Alliaume, W.A.H. Rossing, M. García, K.E. Giller and S. Dogliotti ..... 10
- Ecological intensification of rice production in the lowlands of Amazonia – Options for smallholder rice producers  
C. Gehring, E.G. de Moura, R.R. Soares Santos, A.d.C.F. Aguiar, A.M.B. de Sousa and R.M. Boddey ..... 25
- Nitrogen and water-use efficiency of Australian wheat varieties released between 1958 and 2007  
V.O. Sadras and C. Lawson ..... 34
- A red-edge spectral index for remote sensing estimation of green LAI over agroecosystems  
J. Delegido, J. Verrelst, C.M. Meza, J.P. Rivera, L. Alonso and J. Moreno ..... 42
- Yield, water use and radiation use efficiencies of kenaf (*Hibiscus cannabinus* L.) under reduced water and nitrogen soil availability in a semi-arid Mediterranean area  
C. Patanè and S.L. Cosentino ..... 53
- Long-term effective microorganisms application promote growth and increase yields and nutrition of wheat in China  
C. Hu and Y. Qi ..... 63
- Genetic variability in biomass allocation to roots in wheat is mainly related to crop tillering dynamics and nitrogen status  
V. Allard, P. Martre and J. Le Gouis ..... 68
- ## Short Communication
- Vulnerability of lodging risk to elevated CO<sub>2</sub> and increased soil temperature differs between rice cultivars  
C. Zhu, L.H. Ziska, H. Sakai, J. Zhu and T. Hasegawa ..... 20
