Genetics, Animal Genetic Resources and Breeding

- Predicting lactation yields in dairy buffaloes by interpolation and multiple trait prediction
E.B. Flores, B.P. Kinghorn and J. van der Werf 97
- Cluster analysis on across-country genetic correlations for overall type traits and body condition score of Holstein bulls
M. Battagin, F. Forabosco, M. Penasa and M. Cassandro 108
- Estimates of (co)variance components for production and reproduction traits with different models in Fars native fowls
S. Ghorbani, M. Tahmoorespur, A. Maghsoudi and R. Abdollahi-Arpanahi 115
- Molecular analysis of genetic diversity, population structure and inbreeding level of the Italian Lipizzan horse
G. Barcaccia, M. Felicetti, G. Galla, S. Capomaccio, K. Cappelli, E. Albertini, L. Buttazzoni, C. Pieramati, M. Silvestrelli and A. Verini Supplizi 124
- Estimation of genetic and phenotypic parameters for bacteriological status of the udder, somatic cell score, and milk yield in dairy sheep using a threshold animal model
M. Tolone, V. Riggio and B. Portolano 134
- Selective genotyping and logistic regression analyses to identify favorable SNP-genotypes for clinical mastitis and production traits in Holstein dairy cattle
M. Bagheri, R. Miraie-Ashtiani, M. Moradi-Shahrbabak, A. Nejati-Javaremi, A. Pakdel, U.U. von Borstel, E.C.G. Pimentel and S. König 140
- Short Communications*
- Pedigree analysis in the German Paint Horse: Genetic variability and the influence of pedigree quality
M. Siderits, R. Baumung and B. Fuerst-Waltl 152
- Genetic variability of the mid-infrared prediction of lactoferrin content in milk for Walloon Holstein first-parity cows
G. Leclercq, N. Gengler, H. Soyeurt and C. Bastin 158
- Ruminant Nutrition**
- Nutritive value and digestibility of mistletoes and woody species browsed by goats in a semi-arid savanna, southwest Zimbabwe
H.G.T. Ndagurwa and J.S. Dube 163
- Effects of molasses-based creep-feeding supplementation on growth performance of pre- and post-weaned beef calves
P. Moriel and J.D. Arthington 171
- Eating behavior, ruminal fermentation, and milk production in lactating dairy cows fed rations that varied in dry alfalfa hay and alfalfa silage content
D.D. Maulfair and A.J. Heinrichs 179
- Effects of Leucaena leaf pellet on bacterial diversity and microbial protein synthesis in swamp buffalo fed on rice straw
L.V. Hung, M. Wanapat and A. Cherdthong 188

(Contents continued on last page of this issue)

(Contents continued)

Inclusion of forage standards with known in vivo digestibility in in vitro procedures L.A. Stalker, B.G. Lorenz, N.A. Ahern and T.J. Klopfenstein	198
Behaviour, Health and Welfare	
Evaluation of the endocrine response of cattle during the relocation process S.M. Falkenberg, J.A. Carroll, D.H. Keisler, J.L. Sartin, T.H. Elsasser, J.O. Buntyn, P.R. Broadway and T.B. Schmidt	203
Supplemental dietary tryptophan modifies behavior, concentrations of salivary cortisol, plasma epinephrine, norepinephrine and hypothalamic 5-hydroxytryptamine in weaning piglets H.-W. Liu, B.-M. Shi, D.-S. Liu and A.-S. Shan	213
Livestock Farming Systems and Management	
A comparison of udder health trait definitions in German Holstein dairy cattle based on mastitis treatment data G. Martin, M. Wensch-Dorendorf, R. Schafberg and H.H. Swalve	219
Evaluation of pulsatility index and diameter of the jugular vein and superficial body temperature as physiological indices of temperament in weaned beef calves: Relationship with serum cortisol concentrations, rectal temperature, and sex H.L. Sánchez-Rodríguez, R.C. Vann, R.C. Youngblood, E. Baravik-Munsell, D.L. Christiansen, S. Willard and P.L. Ryan	228
Influence of age at first estrus, body weight, and average daily gain of replacement gilts on their subsequent reproductive performance as sows A. Roongsitthichai, P. Cheuchuchart, S. Chatwijitkul, O. Chantarothai and P. Tummaruk	238
Feeding surgically castrated, entire male and immunocastrated pigs with different levels of amino acids and energy at constant protein to energy ratio with or without ractopamine E. Lanferdini, P.A. Lovatto, R. Melchior, U.A.D. Orlando, M. Ceccantini and E. Poleze	246
Design of algorithms for evaluating the efficiency of labour and variability of some group milking parlour parameters X.C. Carreira, R.A. Mariño, X. Perez-Cancio and M.E. Fernández	252
Genotype x production environment interaction for weaning weight in Angus populations of Brazil and Uruguay A.C. Espasandin, J.I. Urioste, H. Naya and M.M. Alencar	264
Effect of origin and composition of diet on ecological impact of the organic egg production chain S.E.M. Dekker, I.J.M. de Boer, M. van Krimpen, A.J.A. Aarnink and P.W.G. Groot Koerkamp	271
Growth Physiology	
Effect of methionine supplementation on mitochondrial genes expression in the breast muscle and liver of broilers A.P. Del Vesco, E. Gasparino, A.R. Oliveira Neto, R.M. Rossi, M.A.M. Soares and S.C.C. da Silva	284
Reproduction Physiology	
<i>Short Communication</i>	
Detection of <i>Clostridium perfringens</i> in boar semen by PCR techniques E. Bussalleu, L. Sepúlveda, E. Torner and S. Bonet	292
