Research reports

Healthy dining. Subtle diet reminders at the point of purchase increase low-calorie food choices among both chronic and current dieters E.K. Papies and H. Velling	1-7
Watching a food-related television show and caloric intake. A laboratory study J.S. Bodenlos and B.M. Wormuth	8-12
Increased familiarity with eating a food to fullness underlies increased expected satiety M.A. Irvine, J.M. Brunstrom, P. Gee and P.J. Rogers	13-18
Moderate high fat diet increases sucrose self-administration in young rats D.P. Figlewicz, J.L. Jay, M.A. Acheson, I.J. Magrisso, C.H. West, A. Zavosh, S.C. Benoit and J.F. Davis	19-29
Rapid development of semistarvation-induced hyperactivity in Dark Agouti rats. Excessive wheel running and effect of 3,4-methylenedioxymethamphetamine (MDMA) P. Vidal, Á. Pérez-Padilla and R. Pellón	30-35
Parental restriction and children's diets. The chocolate coin and Easter egg experiments J. Ogden, P. Cordey, L. Cutler and H. Thomas	36-44
Acute exercise increases feeding latency in healthy normal weight young males but does not alter energy intake J.A. King, L.K. Wasse and D.J. Stensel	45-51
Gluten free diet adherence in coeliac disease. The role of psychological symptoms in bridging the intention-behaviour gap K. Sainsbury, B. Mullan and L. Sharpe	52-58
Associations between home- and family-related factors and fruit juice and soft drink intake among 10- to 12-year old children. The ENERGY project W. Van Lippevelde, S.J. te Velde, M. Verloigne, I. De Bourdeaudhuij, Y. Manios, E. Bere, N. Jan, J.M. Fernández-Alvira, M.J.M. Chinapaw, B. Bringolf-Isier, E. Kovacs, J. Brug and L. Maes	59-65
Food menus evaluation for most liked products in children from <i>Puna</i> , region of Argentina M.C. Goldner, G. Lescano and M. Armada	66-76
Modification of the school cafeteria environment can impact childhood nutrition. Results from the Wise Mind and LA Health studies D.A. Williamson, H. Han, W.D. Johnson, C.K. Martin and R.L. Newton Jr.	77-84
Explaining and predicting individually experienced liking of berry fractions by the <i>hTAS2R38</i> taste receptor genotype O. Laaksonen, J. Ahola and M. Sandell	85-96
Special section: Parabiosis and the Humoral Mediation of Lipostatic Regulation	
Hervey, Harris, and the parabiotic search for lipostatic signals G.P. Smith	97-99
Control of appetite. Personal and departmental recollections G.R. Hervey	100-110
Is leptin the parabiotic "satiety" factor? Past and present interpretations R.B.S. Harris	111-118
